GENERAL INFORMATION

OptiStart® Gold is a clear liquid corn orthophosphate starter.

- Contains 16% orthophosphate.
- Provides nitrogen, phosphate, potassium, sulfur, zinc and manganese to energize young plants for vigorous early growth in cooler spring soils.
- Flexible starter fertilizer that may be applied in-furrow or banded at planting.
- Chloride free to provide maximum seed safety & minimize germination loss.
- High quality liquid fertilizer that is clean and easy to handle. There are no solids present to plug equipment.
- Is 100% water soluble, pure liquid formulation that assures a uniform homogeneous analysis and mix.
- Allows for early planting which means early dry-down. Midwest side-by-side trials give the edge to corn with starter by 1 to 2 points at harvest.
- Gives young plants better stress resistance to modern herbicides. Young plants are not wasting energy searching for plant nutrients when starters are applied and readily available to the plant.
