

FIFRA Section 2(ee) Recommendation

This recommendation is made as permitted under FIFRA Section 2(ee) and has not been submitted to or accepted

For use and distribution in Texas Only**OxiDate 5.0****EPA Reg. No. 70299-28****DIRECTIONS FOR USE**

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Crop: Soybean

Diseases: Frogeye Leaf Spot, Cercospora Leaf Blight, Septoria Brown Spot, Aerial Web Blight (*See other legume diseases controlled by OxiDate 5.0 on the EPA product label.*)

Rate: 1:200 v/v or 1 pint per 25 gallons of spray solution.

Application Notes:

Foliar Applications: Follow: "Field Grown Crops - Application Rates and Directions".

OxiDate 5.0 works immediately on contact with any plant surface for control of plant diseases. Good coverage and wetting of foliage is required. Begin applications when conditions are conducive to disease development or apply at first sign of disease and apply as needed until the disease threat has passed.

Tank mix instructions: **OxiDate 5.0** may be tank mixed with compatible non-ionic wetting agent/surfactant. In addition, tank mixing with other EPA registered soybean fungicides may improve residual disease control. **OxiDate 5.0** is effective against QoI fungicide resistant disease isolates applied alone or in tank mixes.

Foliar Irrigation (Chemigation) Applications: Apply through, center pivot, lateral move, end tow, side-wheel roll, traveler, solid set, hand move or flood basin irrigation systems. Inject at a dilution of 1:2,000–1:400 (¼ - 1.25 gallons per 500 gallons of water). Apply continuously or during the last 30–120 minutes of the irrigation cycle.

All applicable directions, restrictions and precautions on the EPA-registered label are to be followed.

This FIFRA Section 2(ee) recommendation contains new or additional directions for use which are recommended by BioSafe Systems, LLC. which may not appear on the package label. Read and carefully observe the cautionary statements plus all the other information appearing on the product label.

This product bulletin must be in the possession of the user at the time of pesticide application.
