STORAGE AND DISPOSAL: STORAGE Store in a well-ventilated place. Keep container tightly closed. Store locked up. **DISPOSAL** Dispose of contents / container in accordance with local / regional / national regulations.

GENERAL INFORMATION:

Bioburst Concentrate is to be used to prevent deficiencies in crops grown in soil that may contain low levels of available micronutrients. Bioburst Concentrate is to be used in conjunction with standard fertilizer programs.

SHAKE WELL BEFORE USE:

Bioburst Concentrate may be applied with any conventional spray equipment that insures adequate and even coverage. Apply broadcast and before planting with sufficient water for uniform coverage. Incorporate for best results. May also be applied in the furrow. Application should be made within 24 to 48 hours after dilution. Agitate the solution immediately before use.

RECOMMENDED RATES:

This product is a commercial fertilizer used as plant food in agricultural crop production. For specific application rates follow the recommendation of a qualified individual or institution, such as, but not limited to, a certified crop advisor, agronomist, university crop extension publication, or apply according to recommendations in your approved nutrient management plan.

MIXING INSTRUCTIONS:

Bioburst Concentrate should be used alone in spray tank. However, Bioburst Concentrate has been mixed with fertilizers and numerous common pesticides with good results. Use the standard jar test to determine compatibility.

Warning: This product contains a chemical known to the State of California to cause cancer, birth defects or other reproductive harm. Proposition 65, the Safe Drinking Water and Toxic Enforcement Act of 1986, requires notification of potential exposure to substances identified by the State of California as causing cancer, birth defects or other reproductive harm.
