PACIFIC PREMIUM™ NITRO MSO

METHYLATED BLEND

KEEP OUT OF REACH OF CHILDREN WARNING

HAZARD STATEMENTS – Causes mild skin irritation. Causes serious eye irritation.

PRECAUTIONARY STATEMENTS – Wash thoroughly after handling. Wear protective gloves and eye/face protection.

FIRST AID – If In Eyes: Rinse continuously with water for several minutes. Remove contact lenses if present and easy to do; continue rinsing. If eye irritation persists, get medical attention.

If Swallowed: Rinse mouth. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person. If you feel unwell, call a poison control center or physician immediately for treatment advice.

If Inhaled: Move person to fresh air and keep at rest in a position comfortable for breathing. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. If you feel unwell, call a poison control center or physician for further treatment advice.

If On Skin Or Clothing: Rinse skin immediately with plenty of soap and water for 15 to 20 minutes. If skin irritation occurs, get medical attention. Take off contaminated clothing and wash before reuse.

ENVIRONMENTAL HAZARDS – Do not contaminate water sources by cleaning of equipment or disposal of wastewaters.

For 24-hour emergency service when using this product in the USA and Canada, call CHEMTREC: 1-800-424-9300.

Pacific Premium Nitro MSO™ is a trademark of Chem Nut, Inc.
Kixor® is a registered trademark of BASF.

GENERAL INFORMATION – PACIFIC PREMIUM NITRO MSO is a methylated seed oil (MSO) tank mix adjuvant for use with Kixor® (saflufenacil) herbicide technology and other herbicides. The methylated seed oil components will modify deposition and wetting characteristics to improve spray coverage. PACIFIC PREMIUM NITRO MSO can be used as a single tank mix additive to ensure full compliance with Kixor technology tank label instructions. PACIFIC PREMIUM NITRO MSO meets the specifications for MSO tank mix additives as indicated by the herbicide product label. PACIFIC PREMIUM NITRO MSO provides the convenience of a single adjuvant to optimize Kixor herbicide performance.

DIRECTIONS FOR USE – Always read and follow the label of the tank mix herbicides before using PACIFIC PREMIUM NITRO MSO.

General Use Rate: Use at 1 - 2.5 gallons per 100 gallons of spray solution (or 1.0% - 2.5% v/v).

KIXOR Use Rate: Use at 2.5 gallons per 100 gallons of spray solution (or 2.5% v/v).

If Spray Rate Is Less Than 12.5 GPA: Use a minimum of 1 pint of PACIFIC PREMIUM NITRO MSO per acre. When used at the full label rate, PACIFIC PREMIUM NITRO MSO provides MSO at 1% v/v.

MIXING – Prior to pesticide application, clean mixing and application equipment according to pesticide label directions. To minimize foaming fill spray tank 2/3 or 3/4 full of water and begin agitation. If foaming is anticipated the addition of an antifoaming agent should be added before pesticides, nutrients, or PACIFIC PREMIUM NITRO MSO. Add pesticides and/or fertilizers as directed by label or in the following sequence:

1. Micronutrients and fertilizers;
2. Dry flowables and dispersible granules;
3. Flowables;
4. Water soluble pesticides;
5. Emulsifiable concentrates.

Continue agitation and add PACIFIC PREMIUM NITRO MSO. After the addition of PACIFIC PREMIUM NITRO MSO, reduce agitation and allow to mix for 1 to 2 minutes. Continue filling tank while under minimal agitation. NOTE: For optimum results, spray mixes containing PACIFIC PREMIUM NITRO MSO should be applied within 36 hours.

STORAGE AND DISPOSAL – Do not contaminate water, food, or feed by storage or disposal. Keep container tightly closed and DO NOT allow water to be introduced to contents of this container. DO NOT reuse this container. Keep cool. Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit www.acrcycle.org. Decontaminated containers may also be disposed of in a sanitary landfill. Dispose of contents/container in accordance with local/national regulations.

CONDITIONS OF SALE – Seller warrants that this material conforms to its chemical description and is reasonable fit for the purposes stated on the label when used in accordance with direction under normal conditions of use and Buyer assumes the risk of any use contrary to such directions. Seller makes no other express or implied warranty included and other express or implied warranty of Fitness or of Merchantability, and no agent of Seller is authorized to do so except in writing with a specific reference to this warranty. In no event shall Seller's liability for any breach of warranty exceed the purchase price of the material as to which a claim is made.
