

Partition™

DEPOSITION AID - DRIFT REDUCTION AGENT

PRINCIPAL FUNCTIONING AGENTS:

Polyvinyl Polymer (Polyacrylamide)	30 %
Constituents Ineffective as Spray Adjuvant	70 %
TOTAL	100 %

KEEP OUT OF REACH OF CHILDREN

WARNING

Precautionary Statements: May be harmful if swallowed. Causes skin irritation. May cause an allergic skin reaction. May be harmful if inhaled. Read label before use. Keep container tightly closed. Keep only in original container. Avoid breathing dust/ fume/ gas / mist/ vapors/ spray. Wash hands thoroughly after handling. Do not eat, drink or smoke when using this product. Contaminated work clothing should not be allowed out of the workplace. **Environmental Precautions:** Prevent further leakage or spillage if safe to do so. Do not contaminate water. Do not allow to enter drains, sewers, or watercourses.

Manufactured for:

Loveland
PRODUCTS

Loveland Products, Inc. • PO Box 1286 • Greeley, CO 80632-1286

**SEE BACK LABEL FOR "FIRST AID" AND
"DIRECTIONS FOR USE" INFORMATION.**

Personal Protective Equipment (PPE): Wear protective gloves/ protective clothing/ eye protection/ face protection.

First Aid: **If in eyes:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. **If on skin:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. **If swallowed:** Call a poison control center or doctor immediately for treatment advice. Have the person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person. **If inhaled:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

FOR A MEDICAL EMERGENCY INVOLVING THIS PRODUCT, CALL 1-866-944-8565.

GENERAL: PARTITION is a deposition aid and drift reduction technology (DRT) designed for ease-of-use in spray operations. PARTITION can be used with a large variety of ground and aerial equipment and drift reduction nozzles. PARTITION is compatible with most glyphosate formulations and a wide range of other active ingredients in tank mixes.

DIRECTIONS FOR USE

Follow the recommendations of the most restrictive active ingredient label.

Tank mixtures should only be applied within the label recommendations of every product in the tank mixture.

Recommended for use in the agriculture, turf/ornamental and industrial vegetation management (IVM) sectors.

Use only if a deposition aid and drift reduction technology (DRT) is allowed or not excluded on the label.

If the user does not have experience with the mixture being applied, perform a test using the order and amounts in the mixture and perform a phytotoxicity test to ensure crop safety.

PARTITION PERFORMS EFFECTIVELY AT ULTRA LOW USE RATES. A THICKENED OR STRINGY SOLUTION INDICATES THAT TOO MUCH PARTITION HAS BEEN USED.

Follow the spray equipment manufacturer's recommendations and settings.

The use rate may be adjusted to compensate for environmental conditions or mechanical factors. Lower rates may be used when spraying under calm winds, slow application speeds, low pressures, and lower boom heights with nozzles closer to the target.

The greater the shear on the spray boom nozzle head, the greater the spray droplet fragmentation, which produces fines (mists) that may drift to non-targeted areas or evaporate.

Order of addition

In general, follow the W-A-L-E-S plan when adding herbicides to a tank mix.

1. Wettable Powders (WP) then Flowables (F, DF)
2. Agitate then add adjuvants such as anti-foaming compounds, buffers
3. Liquid and Soluble products
4. Emulsifiable concentrates (EC)
5. PARTITION

Prior to mixing you should fill your spray tank with half of the carrier that you intend to use. Then start the sprayer and check to make sure that all valves and gauges work and that you have proper tank agitation.

	Spray Pressure	USE RATES Nozzle Orientation	Rate per 100 gallons
Aerial applied below 45 psi.....		Straight Back.....	2 to 6 oz.
		45° Angle Back.....	4 to 8 oz.
Ground:			
low (below 30 psi).....		Flat Fan, Flooding.....	1 to 4 oz.
		Off-Center.....	3 to 5 oz.
medium (30 to 50 psi)		Flat Fan, Flooding.....	3 to 4 oz.
		Off-Center.....	4 to 6 oz.
Spray Guns	low pressure (below 30 psi)		5 to 8 oz.
	medium pressure (30 to 50 psi)		8 to 32 oz.
	high pressure (over 50 psi).....		8 to 32 oz.

Higher spray pressure or greater agitation requires higher rates to maintain good drift reduction. If unacceptable drift is still occurring, add additional PARTITION in increments of 1 oz. per 100 gallon of spray solution.

STORAGE AND DISPOSAL

Storage: DO NOT FREEZE. Store in a cool well-ventilated place. Keep in original container tightly closed. Do not reuse empty container. Do not store with food, feed, or other material to be used or consumed by humans or animals. Do not contaminate water supplies. For optimal storage, store between 40° and 90° F.

Disposal: Do not contaminate water, food or feed by storage or disposal. Dispose of contents/container at an approved waste disposal facility. Triple rinse (or equivalent) adding rinse water to spray tank. Offer container for recycling or dispose of container in sanitary landfill, or by other procedures approved by appropriate authorities. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler, visit the ACRC web page at www.acrcycle.org.

For help with any spill, leak, fire or exposure involving this material, call day or night CHEMTREC 1-800-424-9300.

CONDITIONS OF SALE AND LIMITATION OF WARRANTY AND LIABILITY
BEFORE BUYING OR USING THIS PRODUCT, read the Directions for Use and the following Conditions of Sale and Limitation of Warranty and Liability. By buying or using this product, the buyer or user accepts the following Conditions of Sale and Limitation of Warranty and Liability, which no employee or agent of LOVELAND PRODUCTS, INC. or the seller is authorized to vary. LOVELAND PRODUCTS, INC. warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes stated in the Directions for Use, when the product is used in accordance with such Directions for Use under normal conditions of use. LOVELAND PRODUCTS, INC. MAKES NO OTHER WARRANTY, EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. THE BUYER'S OR USER'S EXCLUSIVE REMEDY FOR ANY INJURY, LOSS, OR DAMAGE RESULTING FROM THE HANDLING OR USE OF THIS PRODUCT SHALL BE LIMITED TO ONE OF THE FOLLOWING, AT THE ELECTION OF LOVELAND PRODUCTS, INC. OR THE SELLER: DIRECT DAMAGES NOT EXCEEDING THE PURCHASE PRICE OF THE PRODUCT OR REPLACEMENT OF THE PRODUCT. LOVELAND PRODUCTS, INC. AND THE SELLER SHALL NOT BE LIABLE TO THE BUYER OR USER OF THIS PRODUCT FOR ANY CONSEQUENTIAL, SPECIAL, OR INDIRECT DAMAGES, OR DAMAGES IN THE NATURE OF A PENALTY.
