

PHLOEM GO

2-1-3

Guaranteed Analysis

Total Nitrogen (N).....	2.0%
2.0% Urea	
Available Phosphoric Acid (P ₂ O ₅).....	1.0%
Soluble Potash (K ₂ O).....	3.0%

Derived From: phosphoric acid, urea, potassium carbonate

GENERAL INFORMATION: Phloem Go is a liquid foliar fertilizer, providing a source of Nitrogen, Phosphorus, and Potassium during primary growth stages. This material contains 0.187 lbs of Nitrogen as Urea, 0.094 lbs of P₂O₅, as Orthophosphoric Acid, and 0.281 lbs of Soluble Potash from potassium carbonate, in each gallon. This product is for use in foliar sprays. It is intended to be a supplement to a fertility program. Always monitor crop nutrient needs and responses with a soil, leaf tissue and irrigation water analysis program.

WARNING

HAZARD STATEMENT
Causes skin irritation
Causes serious eye irritation

PRECAUTION STATEMENT
Wash thoroughly after handling.
Wear protective gloves/protective clothing/eye protection/face protection.
Response
IF ON SKIN (or hair): Wash with plenty of water.
IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
Specific treatment, see supplemental first aid information.
IF skin irritation occurs: Get medical advice/attention.
IF eye irritation persists: Get medical advice/attention.
Take off contaminated clothing and wash it before reuse.

DIRECTIONS FOR USE

FOLIAR APPLICATIONS:

Phloem Go may be foliar applied.

In a clean spray tank, add any dry powders and water and agitate. Add liquid Fertilizers and Phloem Go last, continuing agitation. Concentration should not exceed 0.50% (volume to volume) in the finished spray solution. Always use enough water for uniform application and to prevent possible plant tissue damage to the intended crop from concentrated droplets. Contact your Source to Source representative for rates when using low-volume and electrostatic sprayers. Apply during the cool part of the day, or when temperatures below 85° F. Do not apply under windy conditions, or other conditions that promote fast drying of leaf surfaces.

Maximum concentration ratio:

Mix 1 pint of Phloem Go in no less than 25 gallons of water.

PRECAUTIONS:

Agitate prior to use.

COMPATIBILITY:

This product has a mildly acidic pH and is compatible with many commonly applied nutrients and crop protection products. Contact a Source to Source representative for a list of compatible mixes. Jar test for compatibility prior to mixing with any pesticides, fertilizers or fertilizer blends. For unfamiliar mixes, an appropriate amount of the final mix should be applied to a small area of the intended crop to ensure plant compatibility prior to the planned application. User assumes full responsibility to ensure product, equipment and plant compatibilities.

STORAGE AND SHELF LIFE:

Store in a sealed container in cool, dry location, at temperatures above freezing. Triple rinse and dispose of containers according to local and federal regulations.

SUGGESTED APPLICATION RATES & TIMINGS

FRUIT & NUT TREES & GRAPE VINES & OTHER VINES:

Apply 1-4 pints of Phloem Go per acre up to every 7 days during timings of key nutrient demands, in combination with water and any compatible mineral that may be needed. Do not exceed 6 pints of Phloem Brand in a 30 day period.

VEGETABLE CROPS, FIELD AND ROW CROPS:

Apply 1-4 pints of Phloem Go per acre up to every 7 days during timings of key nutrient demands, in combination with water and any compatible mineral that may be needed. Do not exceed 6 pints of Phloem Brand in a 30 day period.

NOTICE: Seller warrants that this product conforms to its chemical description and is reasonably fit for the purposes stated on the label when used in accordance with directions under normal conditions of use. Buyer shall assume all risks of use including, but not limited to crop injury, ineffectiveness or other unintended consequences as may result because of such factors as weather conditions, presence of other materials or the manner of use or application, all of which are beyond the control of the seller. In no case shall Source to Source be liable for consequential, special or indirect damages resulting from the use or handling of this product. Always refer to the label on the product before use.
