

Bentgrass No Dye

28-5-14

28-5-14

DESCRIPTION: Plantex® Bentgrass Special is recommended for use on greens, tees and other fine turf areas. This analysis contains chelated micronutrients for maximum micronutrient availability and prevention of deficiencies. Plantex® Bentgrass Special offers excellent coverage and control of nutrients when using low nutrient application rates and excellent turf safety when used as directed.

DIRECTIONS FOR USE: Plantex® 28-5-14 Fertilizer will provide approximately three weeks of fertility when applied as directed. Factors such as precipitation amount and/or frequency, clipping removal and soil texture will affect fertility rate and duration. Dissolve the recommended amount of fertilizer in at least 5 gallons of water and apply to 1000 square feet.
