

Plantskydd®

RABBITS • DEER • VOLES REPELLENT

Environment Friendly
Not Harmful to Plants or Animals
when used as directed

Repels by Odor
Not Unpleasant to Applicators

PRECAUTIONARY STATEMENTS KEEP OUT OF REACH OF CHILDREN.

May stain concrete, brick and wood. Do not apply directly on to edible parts of fruit, vegetables, and other food crops. Do not ingest. Wash hands after use. This product may be harmful if swallowed. Avoid contact with eyes. If contact with eyes occurs, immediately flush with plenty of water and seek medical attention.

STORAGE AND DISPOSAL
Seal unused powder and store in a cool, dry, dark place inaccessible to children and pets for up to 5 years. Use mixed solution within a few days. Do not contaminate water, food or feed by storage or disposal. If spillage occurs, sweep up. Dispose of empty bags as required by municipal or local laws.

Federal EPA Exempt Minimum Risk Pesticide

Warranty Statement: Tree World warrants that this material conforms to its description on this label and is reasonably fit for the purposes stated hereon when used under normal conditions in accordance with Directions set forth hereon. Neither Tree World nor the seller makes any other expressed or implied warranty of merchantability or fitness of this material for a particular use under conditions not reasonably foreseeable to Tree World for use of this material contrary to the directions hereon, and as a condition of the sale of this material, the buyer assumes all risks of use, storage or handling of this material not in strict accordance with DIRECTIONS and CAUTIONS stated on this label.

KEEP OUT OF REACH OF CHILDREN AND PETS

New Formulation *Plantskydd® + Plus!* MORE RAIN RESISTANT — EASIER TO MIX

General Information

- *Plantskydd* Deer Repellent is effective in preventing deer browse on growing plants, and lasts for months on dormant plants when used as directed.
- Works by emitting an odor—not unpleasant to applicators.
- **Do not apply directly onto edible parts of fruit, vegetables and other food crops.**
- **Cannot be used as a pre-emergent and is not systemic in function.**

Directions for TANK MIX

- *Plantskydd* is a wettable powder that requires strong agitation.
- Add a medium rate of defoamer to water first.
- Slowly pour *Plantskydd* powder concentrate into water while agitating vigorously. (see: *Dilution Rate* table below).
- If heavy rain is anticipated, add additional spreader sticker.
- Agitate solution thoroughly before spraying.
- 50 US mesh strainers are ideal.

Directions for SMALLER APPLICATIONS

- Add 3 gallons of water to a 5 gallon bucket.
- Add a medium rate of defoamer to water.
- Using a drill with a paint mixer attachment, set to high speed — pour *Plantskydd* powder concentrate down vortex while mixing.
- Strain mixture using paint strainer or other 50 US mesh strainer.

Note: *Plantskydd* Repellent has demonstrated excellent plant safety and tank mix compatibility. If in doubt, conduct a 'jar test' and spray small area.

- **Spray on dry plants. Rainfast in 24 hours.**
- **Deer and Elk** — spray all plants and leaves until wet but not dripping.
- **Buck Rub** — spray all around tree stem.
- **Rabbits & Voles** — spray lower leaves, including stem down to root collar.

DILUTION RATES

PLANT TYPE	Method	Dilution Rate	Coverage
Young deciduous trees and vines (non fruit bearing) and ornamental plants.	spot spray	1 lb / 5 gal	up to 5 gal / acre
	broadcast	1 lb / 10 gal	30 to 50 gal / acre
Field crop applications (during fast growth phase, non bearing)	ground application	1 lb / 10 gal	10 to 15 gal / acre
	aerial application	1 lb / 5 gal	5 gal / acre
Conifers and dormant deciduous trees	spot spray	1 lb / 1 gal	8,000 seedlings / bag

FREQUENCY OF APPLICATION

STAGE OF GROWTH	Interval
Fast Growth (emergence / bud break)	10 - 14 days
Leaf Hardening (mid-summer)	21 - 31 days
Dormancy	90+ days
