

## FIFRA Section 2(ee) Recommendation

This recommendation is made as permitted under FIFRA Section 2(ee) and has not been submitted to or approved by the EPA

GROUP 21A INSECTICIDE

### Portal® XLO Miticide/Insecticide (EPA Reg. No. 71711-40)

**For Aerial Use On Mid-Season Cotton When More Than 10 Inches in Height**

**States: Alabama, Florida, Georgia, Kansas, Louisiana, Missouri, Mississippi, New Mexico, North Carolina, Oklahoma, South Carolina, Tennessee, Virginia**

#### DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. This labeling and the EPA approved container label must be in the possession of the user at the time of application.

Read the label affixed to the container for Portal® XLO Miticide/Insecticide before applying. Use of Portal XLO Miticide/Insecticide according to this labeling is subject to the use precautions and limitations imposed by the label affixed to the container for Portal XLO Miticide/Insecticide.

**Portal XLO Miticide/Insecticide will provide control of labeled mites on mid-season cotton more than 10 inches in height when applied by air at the rate of 1.0 to 2.0 pints per acre.**

#### **For best results:**

- A minimum of 5 gallons of water per acre is recommended.
- Apply when mite populations are beginning to build, before reaching economic thresholds.
- As canopy density increases, use of higher water volume will assure better coverage.
