### Directions for Use

- **It is a violation of Federal law to use this product in a manner inconsistent with its labeling.**
- **The user must refer to the federally approved labels for the above noted product and read and follow all directions for use, restrictions, and precautions.**
- **Use of this product according to this bulletin has not been reviewed or endorsed by the Office of the Indiana State Chemist**
- **The user should have this recommendation in its possession at the time of use.**
- **This recommendation for use of this product is permitted under Section 2(ee) of FIFRA and has not been submitted to or been approved by EPA.**

For spring dead spot control in golf course tees, fairways and roughs apply Posterity Forte at 0.42 to 0.84 fl oz per 1000 sq ft. Repeat on a 14 to 28 day interval when conditions are favorable for disease development.
