NET CONTENTS

2.5 Gallons (9.46 Liters)
2 X 2.5 Gallons (18.93 Liters)

ProGamut

**WATER CONDITIONING AGENT,
NONIONIC SURFACTANT,
HUMECTANT, DRIFT REDUCTION AGENT**

PRINCIPLE FUNCTIONING AGENTS

Trisodium citrate dihydrate,
alkyl polyglucoside C9-11, diethylene glycol...34.75%
Constituents ineffective as spray adjuvants.....65.25%
TOTAL.....100.0%

All ingredients are exempt from the requirements
of a tolerance under 40 CFR 180.

**KEEP OUT OF REACH OF CHILDREN
WARNING**

HAZARD STATEMENTS

Causes eye irritation. Causes mild skin irritation. May cause an allergic skin reaction. May cause damage to organs through prolonged or repeated exposure.

First Aid

If in Eyes: Rinse continuously with water for several minutes. Remove contact lenses if present and easy to do; continue rinsing. If eye irritation persists, get medical attention.

If Swallowed: Rinse mouth. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person. If you feel unwell, call a poison control center or physician immediately for treatment advice.

If Inhaled: Move person to fresh air and keep at rest in a position comfortable for breathing. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. If you feel unwell, call a poison control center or physician for further treatment advice.

If on Skin or Clothing: Rinse skin immediately with plenty of soap and water for 15 to 20 minutes. If skin irritation occurs, get medical attention. Take off contaminated clothing and wash before reuse.

GENERAL INFORMATION

ProGamut is a tank mix adjuvant formulated to enhance spray application performance for a variety of crop control products.

ProGamut contains a non-AMS water conditioning agent that minimizes hard water mineral antagonism in the spray tank.

The nonionic surfactant in **ProGamut** enhances spray droplet spreading and infiltration into the targeted leaf surface.

The humectant ingredient in **ProGamut** slows the spray droplet drying time for improved uptake of active ingredients.

ProGamut contains a defoamer to suppress troublesome foam during tank mix agitation.

ProGamut can be used with a wide range of crop control and nutrient tank mixtures when the accompanying labels recommend using water conditioners or penetrant or nonionic surfactants.

MIXING

Prior to any pesticide application, all spray equipment must be thoroughly cleaned. Carefully observe all tank cleaning directions on the pesticide label. Do not mix **ProGamut** with undiluted herbicides.

Unless instructed otherwise by accompanying pesticide label instructions, fill spray tank 1/2 full with water; add **ProGamut** first then continue filling tank. Add remaining pesticide or nutrient ingredients consistent with respective label directions.

EMERGENCY ASSISTANCE

For emergency assistance, call CHEMTREC at 800-424-9300.

XtendiMax is a registered trademark of Bayer.
Engenia is a registered trademark of BASF Corporation.
FeXapan is a registered trademark of Corteva Agriscience.

USE DIRECTIONS

For use with herbicides registered for use for agriculture, forestry, and industrial, municipal, ornamental, right-of-way, turf and non-cropland.

Prior to using **ProGamut**, the user or application advisor must have experience with the combination of active ingredients or must have conducted a phytotoxicity trial.

ProGamut may be applied by ground, CDA or aerial spray equipment.

Ground/Aerial for Water Conditioning/Buffering:
Use 1 to 4 quarts per 100 gallons of spray mixture.

For Use As a Drift Reduction Agent for XtendiMax®, Engenia®, FeXapan® Tank Mixes:
Use 5 pints (minimum) to 8 pints (maximum) per 100 gallons in the spray mixture.

Do not use this product at a rate to exceed 1% v/v of finished spray tank mixture.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

Storage: Do not store below 32°F or above 120°F. Store in a dry, well-ventilated space. Keep container tightly closed. Keep cool.

Disposal: Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit the ACRC web page at www.acrecycle.org. Decontaminated containers may also be disposed of in a sanitary landfill. Do not contaminate water sources with equipment washwater, spray disposal wastes or by cleaning of equipment. Dispose of contents and container in accordance with local and national regulations.

NOTICE-READ CAREFULLY

CONDITIONS OF SALE AND WARRANTY

Integrated Agribusiness Professionals (IAP) warrants that this product conforms to the chemical description on the label thereof and is reasonably fit for the purpose stated on such label only when used in accordance with the directions for use. It is impossible to eliminate all risks inherently associated with the use of this product. Crop injury, ineffectiveness, or other unintended consequences may result because of such factors as weather conditions, presence of other materials, or the manner of use or application, all of which are beyond the control of IAP. In no case shall IAP be liable for the consequential, special or indirect damages resulting from the use or handling of this product. All such risks shall be assumed by the buyer.

Except as expressly provided herein, IAP makes no warranties, guarantees, or representations of any kind, either express or implied, or by usage of trade, statutory or otherwise, with regard to the product sold, including but not limited to, merchantability, fitness for a particular purpose, use or eligibility of the product for any particular trade usage.
