

Precautionary Statements

Wash thoroughly after handling. Wear protective gloves and eye/face protection.

Environmental Hazards

Not for aquatic use. Do not contaminate water sources by cleaning of equipment or disposal of waste waters.

NOT FOR AQUATIC USE

NET CONTENTS

2.5 Gallons (9.46 Liters)
2 X 2.5 Gallons (18.93 Liters)

ProPlex

**WATER CONDITIONER,
NONIONIC SURFACTANT,
HUMECTANT, DRIFT REDUCTION AGENT**

PRINCIPLE FUNCTIONING AGENTS

Sodium tricarballylate, alkyl polyglucoside,	
1,2,3-propanetriol, polyacrylamide,	
poly dimethylsiloxane.....	33.9%
Constituents ineffective as spray adjuvants...	66.1%
TOTAL.....	100.0%

All ingredients are exempt from the requirements of a tolerance under 40 CFR 180.

**KEEP OUT OF REACH OF CHILDREN
WARNING**

HAZARD STATEMENTS
Causes serious eye irritation.

First Aid

If in Eyes: Rinse continuously with water for several minutes. Remove contact lenses if present and easy to do; continue rinsing. If eye irritation persists, get medical attention.

If Swallowed: Rinse mouth. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person. If you feel unwell, call a poison control center or physician immediately for treatment advice.

If Inhaled: Move person to fresh air and keep at rest in a position comfortable for breathing. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. If you feel unwell, call a poison control center or physician for further treatment advice.

If on Skin or Clothing: Rinse skin immediately with plenty of soap and water for 15 to 20 minutes. If skin irritation occurs, get medical attention. Take off contaminated clothing and wash before reuse.

GENERAL INFORMATION

ProPlex is a non-AMS water conditioning agent that can be used with a wide range of crop control and nutrient spray mixtures including glyphosate, glufosinate and 2,4-D applications along with other tank mix partner labels that recommend water conditioners and spreader-wetter type adjuvants.

ProPlex is a multi-functional tank mix adjuvant that minimizes hard water mineral antagonism by modifying the hardness of spray water.

ProPlex contains a nonionic surfactant that improves spreading and penetration of targeted leaf surfaces.

ProPlex contains a humectant ingredient to slow the drying time for improved active ingredient uptake and reduced evaporation of spray deposit.

The defoamer in **ProPlex** suppresses troublesome foam during tank mix agitation.

ProPlex contains a drift reduction agent to minimize off-target drift.

Many factors affect off target drift such as boom height, nozzle configuration/type, spray pressure, temperature, wind and thermal inversion.

ProPlex will not eliminate all drift.

MIXING

Read and follow the precautions, restrictions and recommendations on the labels of pesticides used with **ProPlex**. Fill spray tank 1/2 full of water and begin agitation. Follow pesticide label instructions for mixing order. In the absence of mixing order instructions, add **ProPlex** last and continue filling and agitation.

EMERGENCY ASSISTANCE

For emergency assistance, call CHEMTREC at 800-424-9300.

USE DIRECTIONS

ProPlex is compatible with most fertilizers and pesticides. If the desired mixture has not been used previously, conducting a jar test to confirm compatibility is recommended.

Use Rates

Use 1 to 2 quarts per 100 gallons (0.25% to 0.50% v/v).

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

Storage: Store at ambient temperature. Store in original, tightly closed container. Do not allow water or other chemicals to be introduced into contents of container. Do not store near feed or food products. Do not use or store near open flame.

Disposal: Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit the ACRC web page at www.acrecycle.org. Decontaminated containers may also be disposed of in a sanitary landfill. Do not contaminate water sources with equipment washwater, spray disposal wastes or by cleaning of equipment. Dispose of contents and container in accordance with local and national regulations.

NOTICE-READ CAREFULLY

CONDITIONS OF SALE AND WARRANTY

Integrated Agribusiness Professionals (IAP) warrants that this product conforms to the chemical description on the label thereof and is reasonably fit for the purpose stated on such label only when used in accordance with the directions for use. It is impossible to eliminate all risks inherently associated with the use of this product. Crop injury, ineffectiveness, or other unintended consequences may result because of such factors as weather conditions, presence of other materials, or the manner of use or application, all of which are beyond the control of IAP. In no case shall IAP be liable for the consequential, special or indirect damages resulting from the use or handling of this product. All such risks shall be assumed by the buyer.

Except as expressly provided herein, IAP makes no warranties, guarantees, or representations of any kind, either express or implied, or by usage of trade, statutory or otherwise, with regard to the product sold, including but not limited to, merchantability, fitness for a particular purpose, use or eligibility of the product for any particular trade usage.
