

# PRONTO<sup>®</sup>

## VEGETATION KILLER

**Season-Long Control of Tough Weeds,  
Grass, and Brush as Listed**

**ACTIVE INGREDIENTS:**

|                                       |                |
|---------------------------------------|----------------|
| Imazapyr, isopropylamine salt .....   | 1.74%          |
| Glyphosate, isopropylamine salt ..... | 3.82%          |
| <b>OTHER INGREDIENTS .....</b>        | <b>94.44%</b>  |
| <b>TOTAL</b>                          | <b>100.00%</b> |

**THIS PRODUCT CONTAINS:**

0.12 lb Imazapyr (2-[4,5-dihydro-4-methyl-4-(1-methylethyl)-5-oxo-1H-imidazol-2-yl]-3-pyridinecarboxylic acid) per gallon or 1.42%  
 0.24 lb Glyphosate (N-(phosphonomethyl)glycine) per gallon or 2.83%

**KEEP OUT OF REACH OF CHILDREN  
CAUTION**

**READ THE ENTIRE LABEL FIRST.  
OBSERVE ALL PRECAUTIONS AND  
FOLLOW DIRECTIONS CAREFULLY.**

**PRECAUTIONARY STATEMENTS**

**Hazards to Humans & Domestic Animals**

**CAUTION:** Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet.

**Personal Protective Equipment (PPE)**

All mixers, loaders, applicators and other handlers must wear:

- long-sleeved shirt and long pants,
- shoes and socks,
- chemical-resistant gloves for all mixers and loaders, plus applicators using handheld equipment.

**User Safety Requirements**

Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry.

**User Safety Recommendations**

- Users should wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet.
- Users should remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.
- Users should remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

**First Aid**

|                    |   |
|--------------------|---|
| <b>If in eyes:</b> | <ul style="list-style-type: none"> <li>• Hold eye open and rinse slowly and gently with water for 15-20 minutes.</li> <li>• Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.</li> <li>• Call a poison control center or doctor for treatment advice.</li> </ul> |
|--------------------|---|

Have the product container or label with you when calling a poison control center or doctor or going for treatment. For additional information in case of emergency, call toll free 1-877-800-5556.

**Environmental Hazards**

This product is toxic to plants. Drift and run-off may be hazardous to plants in water adjacent to treated areas. Do not apply directly to water, to areas where surface water is present, or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment wash waters or rinsate. See Directions for Use for additional precautions and requirements.

**Physical or Chemical Hazards**

Combustible. Do not use or store near heat or open flame.

**DIRECTIONS FOR USE**

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

**1. Product Application Restrictions**

- Do not enter or allow others to enter treated areas until sprays have dried.
- Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application.
- Do not use on feed or food crops.

**2. Product Information**

PRONTO<sup>®</sup> Vegetation Killer is a nonselective herbicide which kills most annual and perennial grasses, broadleaf weeds, vines, brush, and trees. The product is absorbed through leaves, stems, and roots and moves throughout the plant. Treated plants stop growing soon after application. PRONTO Vegetation Killer will also provide residual control for up to 12 months in the treated area. Heavy rainfall will reduce the length of residual control. Heavy clay soils may increase the length of residual control.

**3. Use Sites**

PRONTO Vegetation Killer may be used to control weeds: In roadways, roadsides, airports, landing fields, industrial sites, storage yards, lumber yards, tank farms, pumping installations, fuel tanks, pipelines, non-agricultural uncultivated areas or soils, paved areas (including crack and crevice), curbs, sidewalks, driveways, parking areas, brick walks, gravel paths, paths, patios, and vacant lots, urban areas, cemeteries, recreational areas, play areas, and tennis courts. Along fences. Around domestic (residential) dwellings, outdoor buildings, structures and shelters such as dog kennels. For the establishment and maintenance of wildlife openings.

**IMPORTANT:** Use only in areas where you want to 1) kill all existing vegetation and 2) suppress regrowth for up to 12 months. Do not use in gardens, flower beds or in areas intended to be seeded or planted within 12 months. Newly planted trees, shrubs and flowers are especially sensitive. This product is not intended for treating aquatic plants. In lawns, do not use for individual weed control.

**4. Weeds Controlled**

PRONTO Vegetation Killer will control or suppress most grasses, broadleaf weeds, woody brush, vines, and trees. The degree of control and residual varies by plant species.

**5. Application Directions**

The maximum number of applications is 1 broadcast and 1 spot treatment per year OR 2 spot treatments per year OR 1 brush control application per year. The maximum annual rate is 36 fl.oz. of this product per 1,000 sq.ft. per year.

**Equipment Cleanup:** Thoroughly flush application equipment with water after using this product. Do not flush equipment near desirable plants or their root zones.

**5.1 For Total Vegetation Control (Including Bareground Treatment)**

Use hand-operated spray equipment such as backpack sprayers, pump-up sprayers, or sprinkling can. For maximum herbicide activity:

- 1) Weeds should be growing vigorously at the time of application
- 2) Apply 1/4 to 1/2 inch of irrigation 4 to 24 hours after application
- 3) Addition of a surfactant to the spray solution will enhance performance.

**For Broadcast Treatments:** 18 fl.oz. of product will cover 1000 sq.ft. Mix 18 fl.oz. of product with water to produce 3 to 5 gallons of spray solution and spray uniformly over 1000 sq.ft.

**For Spot Treatments:** Apply no more than 18 fl.oz. of product per 1000 sq.ft. Mix 18 fl.oz. of product with water to produce 1 to 5 gallons of spray solution and spray the foliage of clumps of weeds. 1 spot treatment may be used after a broadcast treatment to control weed escapes.
