

# FIFRA

## Section 2(ee) Recommendation

Date: May 29, 2019  
Product: Quadris Fungicide  
EPA Reg. No. 100-1098  
Use: Tank mixing Quadris with fertilizers  
State: Oregon

### Directions for Use

- **It is a violation of Federal law to use this product in a manner inconsistent with its labeling.**
- **The user must refer to the federally approved labels for the above noted product and read and follow all directions for use, restrictions, and precautions.**
- **The user should have this recommendation in its possession at the time of use.**
- **This recommendation for use of this product is permitted under Section 2(ee) of FIFRA and has not been submitted to or been approved by EPA.**

Quadris fungicide can be mixed with most commonly used liquid starter, pop-up or liquid foliar fertilizers (with the exception of fertilizers containing boron or sulfur) so long as the correct mixing order is followed. The physical compatibility of Quadris with fertilizers and/or other products should be determined first using a jar test. Refer to the Mixing and Applications section (Quadris + Tank Mixtures) on the Quadris label for complete instructions on testing for physical compatibility, mixing order, precautions when mixing with emulsifiable concentrates (EC) and silicone adjuvants, and other mixing instructions.
