- Harmful if inhaled.

**CAUTION:** This product contains Boron, Manganese and Zinc. Should be used as recommended. Misuse may prove harmful. Do not use with highly alkaline spray materials, Bordeaux, or spray oils. Always add CHS Rapid Up™ Corn Mix to spray mixture as the first ingredient.

## RESPONSE

- IF IN EYES: Flush with water for 15 minutes. Call a doctor for treatment if irritation persists.
- IF ON SKIN: Wash thoroughly with soap and water. Launder clothing before reuse.
- IF INHALED: Remove affected person from source of exposure. Call 911 if breathing is difficult.
- IF INGESTED: Do not induce vomiting. Get medical attention. Have the product label with you when calling a doctor or going for treatment.

## EMERGENCY 800-210-9324

## GENERAL INFORMATION

Add Corn Mix to spray water first and allow to completely dissolve. Then add compatibility agents and finally add any additional products, allowing each to mix totally in the solution before adding the next. Corn Mix may be used in conjunction with most herbicide spray solutions. Caution must be used when mixing to diminish any negative effects on the herbicide efficacy. Use a jar test for compatibility.

Information regarding the contents and levels of metals in this product is available on the internet at <http://www.aapfco.org/metals.html>

## DIRECTIONS FOR USE

### APPLICATION RATES & MIXING SEQUENCE

**Application:** Typical application rate is 2-5 lbs. of Corn Mix per acre applied as a foliar spray during the early vegetative stage (V-3 to V-6) of the plant. Additional applications may be made if signs of Zinc deficiency are evident. Soil test or tissue tests should be used as a base reference.

Applications of this product should be based on soil test and/or leaf analysis results. Consult your crop specialist for specific application rates.

**Mixing Sequence:** Mixing sequence must be Corn Mix first, Ammonium Sulfate or other compatibility agent and lastly any other product. (Each product must be allowed to mix completely before the addition of the next.)

Conditions of Sale and Warranty Limitations: The Directions for Use of this product reflect the opinion of experts based on field use and tests. The directions are believed to be reliable and should be followed carefully. However, it is impossible to eliminate all risks inherently associated with use of this product. Crop injury, ineffectiveness or other unintended consequences may result because of such factors as weather conditions, presence of other materials, or use of the product in a manner inconsistent with its labeling, all of which are beyond the control of CHS Inc. or the seller. All such risks shall be assumed by the buyer. CHS Inc. warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes referred to in the Directions for Use, subject to the inherent risks referred to above. CHS Inc. makes no other express or implied warranty of fitness or merchantability or any other express or implied warranty. In no cases shall CHS Inc. or the seller be liable for consequential, special or indirect damages resulting from the use or handling of this product. CHS Inc. and the seller offer this product, and the Buyer and the User accept it, subject to the foregoing conditions of Sale and Warranty, which may be varied only by agreement in writing signed by a duly authorized representative of CHS Inc.
