DIRECTIONS FOR USE

IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN ANY MANNER INCONSISTENT WITH ITS LABELING.

This label must be in the possession of the user at the time of application.

ALL APPLICABLE DIRECTIONS, RESTRICTIONS AND PRECAUTIONS IN THE PRODUCT LABEL BOOKLET MUST BE FOLLOWED, INCLUDING STATEMENTS PERTAINING TO THE WORKER PROTECTION STANDARDS, ON THE REGISTERED LABEL.

Reckoning can be applied to all beans via spray at a rate of 22-48 ounces per acre per application depending on the severity of the disease pressure. Reckoning is designed to control botrytis, the rate shall be based on the level of outbreak with standard application of 22-32 ounces per acre and a wash of outbreak control level of 48 ounces per acre. Application should be made as close to onset of disease and continued every 10-14 days for superior control. Applications can be made anytime during season with enough water to provide through coverage. The use of a surfactant is suggested to increase the efficacy of Reckoning. Reckoning contains a 0 pre-harvest, 0 re-entry and has no minimum risk level issues for export. .

NOTICE

Read the "WARRANTY DISCLAIMER" and "LIMITATION OF LIABILITY" in the label booklet for this product before using this product. Those terms apply to this supplemental labeling and if those terms are not acceptable, return the product unopened at once.
