EPA Reg. No. 42750-40

DICAMBA HD
EPA Reg. No. 42750-209

RANGE STAR
EPA Reg. No. 42750-55

FALLOW STAR
EPA Reg. No. 42750-63

RANGE STAR XLT
EPA Reg. No. 42750-286

IT IS A VIOLATION OF FEDERAL AND STATE LAW TO MAKE ANY APPLICATION OF ANY DICAMBA HERBICIDE PRODUCT UNLESS THE PRODUCT LABELING SPECIFICALLY AUTHORIZES THE USE.

The above referenced Albaugh dicamba products are NOT approved for application to the new Cotton and Soybean dicamba tolerant GMO crops.

DO NOT APPLY DICAMBA HERBICIDES TO ANY DICAMBA TOLERANT GMO CROP IN 2017 UNLESS you use a dicamba herbicide product that is specifically labeled for that use in the location where you intend to make the application.

In addition to US EPA regulations, certain states have or may adopt additional restrictions or regulations for dicamba and other auxin class herbicides (such as 2,4-D) that may not be on the EPA approved label.

These regulations may affect all dicamba products regardless of whether labeled for in-crop use on dicamba tolerant GMO crops. Such restrictions may include:

- Timing of application
- Permitted uses
- Extended buffer zones
- Applicator certification requirements.

Growers and applicators must be aware of these state specific regulations before applying dicamba.

Contact the U.S. EPA, your state pesticide regulatory agency, or your university Extension Service with any questions about the approval status of dicamba herbicide products in your state. **ALWAYS READ AND FOLLOW LABEL DIRECTIONS.**
