

PRODUCT DESCRIPTION

Rhizolizer® Duo WP for Berries & Melons augments natural microbial activity in the rhizosphere of agricultural soils. It supports nutrient availability and crop nutrient uptake from the soil. For commercial agricultural use only.

DIRECTIONS

Fill mixing tank to a minimum of 50% volume of water, begin agitation, add Rhizolizer Duo WP, and fill with the remainder of required volume. Agitate throughout application. Applications may be made at planting and in-season through ground, chemigation, and fertigation methods. Rhizolizer Duo WP should be applied within 8 hours of mixing. It can be used in tank mixtures and applied with some agricultural fertilizers and blends.

Do not tank mix with or apply directly after some agricultural fungicides or antimicrobials. Do not apply with UAN. Can be applied with CAN-17, 10-34-0, and 6-24-6. Not recommended for use as a fertilizer substitute.

Conduct a jar test to assure tank mix compatibility. See Locus AG compatibility guidelines for more information. Contact Locus AG to ensure compatibility.

Treat with 1 oz per acre for: Strawberry, Raspberry, Blueberry, Blackberry

Treat with 2 oz per acre for: Watermelon, Melon, Basil, Cantaloupe, Musk Melon
