GENERAL INFORMATION

SB-56 is a blend of nonionic and anionic adjuvants to be used with miticide, insecticide, and fungicide spray applications. Add SB-56 last to spray solutions.

FIRST AID

If swallowed: Call a poison control center or doctor immediately for treatment advice. Have the person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

If inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

If in eyes: Hold eye open and rinse slowly and gently with water for 15 to 20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

If on skin or clothing: Take off contaminated clothing and wash before reuse. Rinse skin immediately with plenty of soap and water for 15 to 20 minutes. Call a poison control center or doctor for treatment advice.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

Storage: Store in a closed container. Store above 32° F. Store away from heat or open flame and oxidizing materials.

Disposal: Wastes resulting from this product may be disposed of on site or at an approved waste disposal facility. Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit www.acrecycle.org. Dispose of contents/container in accordance with local/national regulations.

USE DIRECTIONS

The suggested usage rates below are considered adequate for most uses. Some pesticide formulations or some crop conditions may require more or less SB-56 than suggested. Check the deposit after the initial spray load and adjust the concentration if necessary.

SB-56 Use Rate per 100 Gallons of Water

Ground Sprays (Field Crops).....	4 to 16 fl. oz.
Dilute Sprays (Tree Crops).....	4 to 8 fl. oz.
Concentrate Sprays.....	8 to 12 fl. oz.
Aerial Sprays.....	8 to 16 fl. oz.
Grapes (all).....	1 to 8 fl. oz.
Hops.....	4 to 16 fl. oz.

NOT FOR AQUATIC USE

Notice-Read Carefully

TERMS AND CONDITIONS OF SALE Seller warrants that the product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of merchantability of fitness for a particular purpose, expressed or implied, extends to the use, storage or handling of the product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to seller, and buyer assumes the risk of any such use. These risks include, but are not limited to damage of plants, crops and animals to which the materials are applied, failure to control pests, damage caused by drift to other plants or crops and personal injury.
