

SECURE

DEPOSITION ADJUVANT

Designed for Water and Oil Soluble Agrochemicals

PRINCIPAL FUNCTIONING AGENTS:

Pinene (terpene) Polymers, petrolatum, a-(p-Dodecylphenyl –
Omega-hydroxypoly (oxyethylene) 100%
CA Reg. No. 1051195-50002-AA

Proprietary Protected Technology

GENERAL INFORMATION

SECURE is a deposition adjuvant with non-ionic properties designed to improve the contact, wetting and adhesion of pesticides on the plant surface. **SECURE** forms a soft film, which polymerizes protecting spray, deposits from rainfall erosion, volatility and ultraviolet (UV) degradation. Under most conditions, apply sprays containing **SECURE** at least one half hour, during daylight, before an anticipated rain. Sunlight, direct or indirect, for this time period is needed for the film to set.

KEEP OUT OF REACH OF CHILDREN

NET CONTENTS

- 1 Gallon (3.79 L)
- 2.5 Gallons (9.46 L)

DIRECTIONS FOR USE

SECURE may be used with all products registered for: Agricultural, Forestry, Ornamental, Industrial Vegetation and Non-Cropland uses.

SECURE may be applied by ground or aerial spray equipment in concentrate or dilute sprays.

GROUND: Dosage per 100 gallons of spray solution (dilute).

Fungicides, Insecticides, Plant Growth Regulators 4 oz to 1 pint

Herbicides 4 oz to 1 pint

AERIAL APPLICATIONS OR CONCENTRATE GROUND SPRAYS UNDER 50 GALLONS OF WATER PER ACRE: Use 4 to 16 oz. per acre.

SOIL APPLIED PESTICIDES: To stabilize, improve performance and retard photo-degradation apply **SECURE** at 1 to 2 pints per acre.

MIXING

Fill spray tank one-half full with water and begin agitation. Add pesticides as directed by label and continue filling. Add **SECURE** last and continue agitation.

Use this product in accordance with good agronomic practices, which include utilizing proven spray equipment set for proper coverage. Do not make applications when temperatures are too hot. Applications should be made at temperature levels and when other environmental conditions in your area are such that your experience indicates the application will be compatible and will accomplish the desired result.

PHYTOTOXICITY PRECAUTION: Under some environmental conditions, some pesticides or pesticide combinations may cause phytotoxicity on growing plants. Adjuvant products such as this product may increase the chance or the intensity of phytotoxicity. Use this product in a manner consistent with individual pesticide product recommendations.

ENVIRONMENTAL HAZARDS: This product is not for aquatic use. Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when cleaning equipment or disposing of equipment washwaters.

STORAGE & DISPOSAL: Keep in original container. Store above 32° F. Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit the ACRC web page at www.acrecycle.org. Decontaminated containers may also be disposed of in a sanitary landfill.

LIMITED WARRANTY: The use of this material being beyond our control and involving elements of risk to human beings, animals, and vegetation, we do not make any warranty, express or implied, as to the effects of such use when this product is not used in accordance with the directions as stated on this label.
