SECTION 4: FIRST AID MEASURES

Description of First Aid Measures

If symptoms occur, call a poison control center or doctor for treatment advice

If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.

If on skin: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes.

If swallowed: Call a poison control center or doctor immediately for advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

If inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible.

Most Important Symptoms and Effects Acute and Delayed

Eyes: Contact may cause slight temporary eye irritation. Mist may cause irritation. Corneal injury is unlikely.

Skin: Prolonged contact is essentially nonirritating to skin, and is unlikely to result in absorption of harmful amounts. Repeated contact

Immediate Medical Attention and Special Treatment

Treat symptomatically. Have container with you when seeking medical advice.

Note to physician: No specific antidote. Treat symptomatically and according to the condition of the patient.

SECTION 5: FIRE-FIGHTING MEASURES

Extinguishing Media

Use water fog or fine spray, dry chemical fire extinguishers, carbon dioxide fire extinguishers, or foam. Do not use direct water stream, as this may spread the fire.

Special Hazards Arising from the Substance or Mixture

Avoid inhaling the fumes.

Special Protective Equipment and Precautions for Firefighters

Wear positive-pressure self-contained breathing apparatus (SCBA) and protective fire-fighting gear. If protective equipment is not available or is not used, fight fire from a protected location or safe distance. Consider the use of unmanned hose holders or monitor nozzles. Keep people away. Isolate the fire and deny unnecessary entry. Move container from fire area if this is possible without hazard. Immediately withdraw all personnel from the area in case of rising sound from venting safety devices or discoloration of the container. Use water spray to cool fire exposed containers and fire affected zone until fire is out and the danger of reignition has passed.

SECTION 6: ACCIDENTAL RELEASE MEASURES

Personal Precautions Protective Equipment and Emergency Procedures

Avoid inhalation of vapors, dusts, and spray mist. Avoid contact with skin and eyes. Spilled material may cause a slipping hazard. Use appropriate personal protective equipment (see section 8).

Environmental Precautions

Prevent further spillage if safe to do so. Prevent from entering into soil, ditches, sewers, waterways, and/or groundwater.
