CAUTION: Harmful if absorbed through skin. Causes moderate or severe irritation. Avoid contact with eyes, mouth, or broken skin. Use only with local or general ventilation. Use NIOSH approved particulate filter with any R or P filter

with NIOSH approval number prefix TC-84A. A NIOSH approved powered air purifying respirator with an HE

USER SAFETY REQUIREMENTS: Follow manufacturer’s instructions for cleaning/maintaining PPE. If no such instructions for the materials exist, use the following:

USER SAFETY RECOMMENDATIONS: Wear as

with water for 15-20 minutes. Remove contaminated clothing or
clothing before wearable eyegear, if appropriate.

Personal Protective Equipment (PPE): Mixers, loaders, appli-
cations and other handlers must wear the following: long-sleeve shirt, long pants, shoes and socks, and chemical-resistant gloves made of barrier laminate, nitrile, neoprene, rubber or Viton. In addition to the above PPE, applicators using a high pressure hand wand in an enclosed area must wear a half- face, full-face, or hood-style NIOSH-approved respirator with a NIOSH approved particulate filter with any R or P filter

with NIOSH approval number prefix TC-84A. In addition to the above PPE, applicators fogging this product (applying as a space spray) in an enclosed area must wear a half-face, full-face, or hood-style NIOSH-approved respirator with a NIOSH approved particulate filter with any R or P filter

with NIOSH approval number prefix TC-84A. A NIOSH approved powered air purifying respirator with an HE

with NIOSH approval number prefix TC-21C.

USER SAFETY REQUIREMENTS: Follow manufacturer’s instructions for cleaning/maintaining PPE. If no such instructions for the materials exist, use the following:

If used in a direct injection system, the pesticide container must be locked. Securely attach the end use label to the pesticide container in a weather protected area or plastic sleeve.

This product must only be used in systems that have been calibrated to apply no more than the maximum application rate of 0.0033 lbs/1,000 ft² (no animals present).

**OUTDOOR USE**

**OUTDOOR GROUND FOGGING APPLICATION USING HAND EQUIPMENT** (Flies, Gnats)
Use in open areas near buildings and in campgrounds. Use preferably at a time when temperatures is cool (< 75°F) and the wind velocity is approx. ≤5 mph. Use at least 20 feet outside of and 2 ft². Contact as many insects as possible. Before making any application, ensure product will not stain surface or leave an unacceptable residue. The amount of product applied is not to exceed 0.33 fl oz per 1,000 ft².

To the extent consistent with applicable law, Control Solutions, Inc. and Seller offer this product, and Buyer and User accept it, subject to the Conditions of Sale and Limitation of Warranty and Liability stated in the Directions for Use, Subject to the inherent risks of use or application, weather, presence of other materials or other conditions that are beyond the control of Control Solutions, Inc. or Seller. All such risks shall be assumed by Buyer and User, and Buyer and User agree to hold Control Solutions, Inc. and Seller harmless for any claims relating to such factors.

For Bed Bugs: Direct application into areas where bed bugs are suspected. Do not do direct spraying.

HANDTANK OR PISTRINE APPLICATOR: (Direct application into cracks and crevices in elements of construction, walls, floors, underneath sinks, below appliances and other places where insects may harbor. For spot treatments, use a coarse, low-pressure spray, concentrated on areas where people or pets are most likely to come in contact with the insect kill product.)

**OUTDOOR USE**

**USE RESTRICTIONS FOR INDOOR MISTING SYSTEMS**

- Not for use in outdoor residential misting systems (indoor or outdoor). Do not apply this product in bars or stable areas where animals intended for slaughter or human consumption will be maintained.

- Do not apply when food, feed and/or water is present.

- When using this product, installers and service technicians must comply with the license, certification or registration requirements of the state (s) or local authority(ies) where they are installed.

- When applying via a remote activation device, do not apply when people and pets are present. If possible, when applying via automatic time setting, monitor for application when people and pets are unlikely to be present.

- Direct nozzles to spray towards the target area and away from areas where people or pets are present.

- Do not use in evaporating cooling system.

- Do not use in misters located within 3 ft of air vents, air conditioners or windows.

- If used in a direct injection system, the pesticide container must be locked. Securely attach the end use label to the pesticide container in a weather protected area or plastic sleeve.

- This product must only be used in systems that have been calibrated to apply no more than the maximum application rate of 0.0033 lbs/1,000 ft² (no animals present).

**STORAGE AND DISPOSAL**

- Do not contaminate water, food or feed by storage or disposal.

**PESTICIDE STORAGE**:
Store in original container in secured, dry storage area. Do not store above 100°F for extended periods. Use in accordance with the approved waste disposal facility.

**PESTICIDE DISPOSAL**:
Wastes resulting from use of this product may be disposed of in sanitary landfill, or by incineration, or, if allowed by the jurisdiction, they may be treated. The amount of product applied is not to exceed 0.33 fl oz/1,000 ft².
