Subject: **Continuing Letter of Guarantee**
RE: **SaniDate® 5.0 - EPA Reg. No. 70299-19**

To Whom It May Concern:

BioSafe Systems, LLC, the manufacturer of **SaniDate 5.0**, hereby guarantees that this product meets the specifications claimed on the label and is formulated from batches certified in accordance with the applicable regulations promulgated under all applicable EPA regulations.

SaniDate 5.0 (EPA Reg. No. 70299-19) is an EPA registered pesticide, labeled for a wide variety of uses; in commercial, agricultural, post-harvest, and horticultural water treatment applications including: Hard surface disinfection/sanitization against human health pathogens, Suppression and control of crop spoilage organisms, Surface treatment of food and non-food contact surfaces used in processing post-harvest commodities, Post-harvest spray treatment directly to fruits and vegetables without the requirement of a final rinse, Treatment of dump tanks, drench tanks, humidification system waters, Fogging applications into food processing plants and Use in foot bath mats.

When diluted and used according to label directions for use, **SaniDate 5.0** is approved for direct application to fruits and vegetables including cranberries to reduce surface microbial populations. This product may be applied via spray, dip, fogging, and misting with no rinse required after treatment with this product. Upon contact with materials such as plant tissue, organic matter, and microorganisms, hydrogen peroxide and peroxyacetic acid break down immediately into water, oxygen and acetic acid. Acetic acid breaks down to carbon dioxide and water. None of the moieties resulting from degradation pose any toxicological concern. As such when used according to the label, no adverse effects are expected to human health, or to the environment.

In addition, **SaniDate® 5.0** is USDA National Organic Program (NOP) compliant for use in post-harvest processing as per the requirements outlined in 7 CFR §205.605 and registered with the Organic Materials Review Institute (OMRI). The active ingredients in this product, hydrogen peroxide (H₂O₂) and peroxyacetic acid (PAA), as listed in 40 CFR §180.1196, are US EPA-exempt from the requirement of a tolerance, as there are no residues.

Please contact me with any questions.

Sincerely,

A handwritten signature in black ink that reads "Yesenia Fuentes".
