

# Total Pond React<sup>®</sup>

1093.1PT.STP

**In-Season All-Purpose Aquatic Weed Control**

**Controls all forms of aquatic weeds in ponds, lakes and reservoirs**

- Fast-acting contact control
- Kills only what you spray
- Suppresses some algae

**Active Ingredient:**

Diquat dibromide [6,7-dihydrodipyrido(1,2-a:2',1'-c)pyrazinedium dibromide]..... 37.3%

Other Ingredients..... 62.7%

**TOTAL**..... 100.0%

Contains 2 pounds diquat cation per one (1) U.S. gallon (3.73 pounds diquat dibromide per gallon).

**Keep Out of Reach of Children**

**CAUTION**

REFER TO  
BACK PANEL AND LABEL BOOKLET  
FOR ADDITIONAL PRECAUTIONARY  
STATEMENTS AND DIRECTIONS  
FOR USE.

# Total Pond React®

***In-Season All-Purpose Aquatic Weed Control***

**Controls fresh water weeds in, on and around water**

Shorelines

Ponds

Docks

Swimming Areas

**Provides a quick kill for many aquatic weeds with visible results in just days!**

## Application Guidance

Mix 4.5 oz. with 3 gallons of water to cover 900 sq. ft. (4 ft. deep)

One pint (this container) treats up to 3,200 sq. ft.

Fishing and Swimming is permitted following application

**Refer to label booklet for precautionary statements and directions for use.**

Summer

Fall

Recommended Application Timing

### **How SePRO Total Pond - React works**

This product is an all-purpose, fast-acting, contact herbicide that controls unwanted floating, emergent and submersed aquatic weeds growing in the water and along the shoreline. This product controls weeds by interfering with photosynthesis that occurs within plant tissue. Absorption and herbicidal action is usually quite rapid with effects visible in a few days.

### **When to apply**

This product should be applied when weeds are actively growing. Spray when the air is calm to minimize drift to desirable plants.

### **Where to apply**

- along shorelines
- around docks or piers
- channels, canals, and drainage ditches
- wetlands and other natural areas

## **How to apply**

### *Foliar Spray Targeting Floating & Emergent Weeds (i.e. duckweed, cattails)*

- This product mixes readily with water. Add 1 ½ oz. to 1 gallon of water to sprayer tank. Add an aquatic non-ionic surfactant at a rate specified on that product's label.
- Close sprayer, shake/swirl well.
- If possible, adjust nozzle tip to apply a coarse spray. Spray directly on plants you want to control until they look glossy wet.

### *Surface Spray or Injection Targeting Submersed Weeds (i.e. naiads, pondweeds, watermilfoil)*

- This product mixes readily with water. Based upon your average water depth of the treatment area, add the specified amount of product from Table 1 per gallon of water to a sprayer tank. Add an aquatic non-ionic surfactant at a rate specified on that product's label.
- Apply by boat or from a dock or shore.
- Surface spray and/or inject the spray solution by placing the sprayer tip under the surface of water while moving around the waterbody.

**STOP! Please read entire label before use.**

**Table 1. Submersed Weeds  
Application Rates**

Average water depth in treatment area (ft.)	Rate (oz./gallon of water)
2	$\frac{3}{4}$
4	1 $\frac{1}{2}$
6	2 $\frac{1}{4}$
8	3

*Example: Submersed weeds in average depth of 4 feet of water. Mix 4.½ oz. to 3 gallons of water to treat 900 square feet.*

(step by step illustration of how to mix and apply)

**Step 1**

**Step 2**

**Step 3**

**STOP! Please read entire label before use.**

- Regardless of application method, one gallon of spray solution covers approximately 300 sq. ft.
- For most situations, one pint (this container) makes about 10 ½ gallons and treats up to 3,200 sq. ft.

### **Tips for best results**

- Apply directly to vegetation to be controlled insuring complete, uniform coverage; spray to glossy wet.
- Some species may require retreatment to achieve complete control. Wait 14 days before reapplication.
- Begin by treating from the shoreline, moving outward toward the middle of water body.
- Muddy water in the pond or sprayer can reduce effectiveness.

### **Use this product to treat susceptible weeds including:**

bladderwort  
Brazilian elodea  
cattails  
coontail  
duckweed  
elodea  
hydrilla

naiad species  
pennywort  
pondweed species  
salvinia  
water lettuce  
watermilfoil species

Do not treat more than  $\frac{1}{3}$  of the waterbody during a single application to avoid the potential for depletion of oxygen due to decaying vegetation. Wait at least 14 days before completing treatment of the remainder of the waterbody.

**Obtain Required Permits:** Consult with appropriate state or local pesticide and/or water authorities before applying this product in or around public waters. Permits and posting or treatment notification may be required by state, tribal, or local public agencies.

For application only to **still water** (i.e. ponds, lakes, reservoirs) where there is **minimal or no outflow to public waters**.

Treated water may be used according to the water use restrictions set forth in Table 2 or when an approved assay or analytical method establishes that the water does not

**STOP! Please read entire label before use.**

contain more than the designated maximum contaminant level goal (MCLG) of 0.02 mg/l (ppm) of diquat dibromide (calculated as the cation). For preparing agricultural sprays for food crops, turf or ornamentals (to prevent phytotoxicity), do not use water treated with this product before the specified time period.

**TABLE 2: WATER USE RESTRICTIONS  
FOLLOWING APPLICATIONS  
WITH THIS PRODUCT (Days)**

Drinking	Fishing and Swimming	Livestock/ Domestic Animals Consumption	Irrigation to Turf and Landscape Ornamentals	Irrigation to Food Crops and Production Ornamentals
3 days	0	1 day	3 days	5 days

## **Environmental Hazards**

This pesticide is toxic to aquatic invertebrates. For Terrestrial Uses do not apply directly to water, or to areas where surface water is present, or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment wash waters. For Aquatic Uses do not apply directly to water except as specified on this label.

## **STORAGE AND DISPOSAL**

**Pesticide Storage:** Keep from freezing. Store in original container only. Do not store near feed or foodstuffs. In case of leak or spill, use absorbent materials to contain liquids and dispose as waste.

### **Container Handling**

**Non-refillable Container. DO NOT reuse or refill this container.**

**If empty:** Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

**CONTAINER IS NOT SAFE FOR FOOD, FEED, OR DRINKING WATER!**

---

## **Precautionary Statements**

---

**Hazards to Humans and Domestic Animals**

# **CAUTION**

Harmful if inhaled. Harmful if swallowed. Causes moderate eye irritation. Avoid breathing spray mist and contact with eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse.

**STOP! Please read entire label before use.**

### **FIRST AID**

<b>If inhaled:</b>	<ul style="list-style-type: none"><li>• Move person to fresh air.</li><li>• If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible.</li><li>• Call a poison control center or doctor for further treatment advice.</li></ul>
<b>If swallowed:</b>	<ul style="list-style-type: none"><li>• Call a poison control center or doctor immediately for treatment advice.</li><li>• Have person sip a glass of water if able to swallow.</li><li>• Do not induce vomiting unless told to do so by the poison control center or doctor.</li><li>• Do not give anything to an unconscious person.</li></ul>
<b>If in eyes:</b>	<ul style="list-style-type: none"><li>• Hold eye open and rinse slowly and gently with water for 15 - 20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.</li><li>• Call a poison control center or doctor for treatment advice.</li></ul>

### **HOTLINE NUMBER**

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. In case of emergency endangering health or the environment involving this product, call **INFOTRAC** at **1-800-535-5053**.

**Note to Physicians:** To be effective, treatment for diquat poisoning must begin IMMEDIATELY. Treatment consists of binding diquat in the gut with suspensions of activated charcoal or bentonite clay, administration of cathartics to enhance elimination, and removal of diquat from the blood by charcoal hemoperfusion or continuous hemodialysis.

### **Personal Protective Equipment (PPE)**

#### **Users must wear the following:**

Protective eyewear (goggles, face shield, or safety glasses), long-sleeve shirt, long pants, shoes plus socks, and waterproof gloves. Keep and wash PPE separately from other laundry. Discard clothing and other absorbent material that have been drenched or heavily contaminated with this product's concentrate. Do not reuse them.

### **User Safety Recommendations**

Users must: Wash the outside of gloves before removing. Wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing. Remove PPE immediately after handling

this product. As soon as possible, wash thoroughly and change into clean clothing.

**Warranty Disclaimer:** SePRO Corporation warrants that this product conforms to the chemical description on the product label. Testing and research have also determined that this product is reasonably fit for the uses described on the product label. To the extent consistent with applicable law, SePRO Corporation makes no other express or implied warranty of fitness or merchantability nor any other express or implied warranty and any such warranties are expressly disclaimed.

**Misuse:** Federal law prohibits the use of this product in a manner inconsistent with its label directions. To the extent consistent with applicable law, the buyer assumes responsibility for any adverse consequences if this product is not used according to its label directions. In no case shall SePRO Corporation be liable for any losses or damages resulting from the use, handling or application of this product in a manner inconsistent with its label.
