

**FOR TREES, VINES, FIELD AND ROW CROPS**

**0-0-5**

**GUARANTEED ANALYSIS**

Soluble Potash (K<sub>2</sub>O).....5.0%

Derived from: potassium carbonate

**GENERAL INFORMATION:** Shine O.A. is a liquid foliar material containing potassium to aid in the movement of photosynthates. Shine O.A. should be applied in combination with other foliar fertilizers. This product is intended to be a supplement to an adequate and balanced fertility program. Monitor crop nutrient needs and responses with a soil, leaf tissue and irrigation water analysis program.

**DIRECTIONS FOR USE:**

**FOLIAR APPLICATIONS:** Shine O.A. should be foliar applied with other fertilizers for best results. In a clean spray tank, add any dry powders and water and agitate. Add liquid fertilizers and Shine O.A. last, continuing agitation. Mix with water in a maximum concentration of 1 gallon of Shine O.A. per 7.5 gallons of finished solution. Always use enough water for uniform application and to prevent possible plant tissue damage to the intended crop from concentrated droplets. Contact your Bio-Gro, Inc. representative for rates when using low-volume and electrostatic sprayers. Apply during the cool part of the day, or when temperatures below 85° F. Do not apply under windy conditions, or other conditions that promote fast drying of leaf surfaces.

Foliar Spray Concentration Ratio:

1 gallon of Shine O.A. per 7.5 gallons of finished solution.

**DIRECTIONS FOR USE CONTINUED...**

**PRECAUTIONS:** Agitate prior to use.

**COMPATIBILITY:** Shine O.A. has a near neutral pH and is compatible with many insecticides, fungicides and chelated micronutrients. Shine O.A. should be jar tested and/or field tested in a small area to observe potential phytotoxicity before application. Contact a Bio-Gro, Inc. representative for a list of compatible mixes. User assumes full responsibility to ensure product, equipment and plant compatibilities. For best results, buffer all tank mixes to a final pH of 6.0-7.0. When tank mixing this product with pesticides requiring specific pH ranges, always follow pesticide label directions.

**STORAGE AND SHELF LIFE:** Store in a sealed container in cool, dry location, at temperatures above freezing. Triple rinse and dispose of containers according to local and federal regulations.

**SUGGESTED APPLICATION RATES & TIMINGS**

**FRUIT & NUT TREES & GRAPE VINES & OTHER VINES:** Apply .25-1 gallon of Shine O.A. per acre, in combination with water and any compatible mineral that may be needed.

**VEGETABLE CROPS:** Apply 8 oz - 1 gallon per acre in combination with water and any compatible mineral that may be needed.
