

**SECTION 24(C) REGISTRATION**

**SIMAZINE 4L FLOWABLE HERBICIDE**

EPA REG. NO. 34704-687

EPA SLN NO. WA-900040

**FOR DISTRIBUTION AND USE ONLY WITHIN WASHINGTON**

**ALL APPLICABLE DIRECTIONS, RESTRICTIONS, AND PRECAUTIONS ON THE EPA REGISTERED LABEL ARE TO BE FOLLOWED.**

**THIS LABEL MUST BE IN POSSESSION OF USER AT THE TIME OF APPLICATION.**

**DIRECTIONS FOR USE**

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

**CABBAGE GROWN FOR SEED ONLY:** To control annual weeds including chickweed, groundsel, smartweed, prostrate knotweed, wild buckwheat, annual bluegrass and pineappleweed, make two applications of 25.6 fluid ounces (0.8ll active ingredient) per acre each. The first application should be made in the fall after the start of the winter rainfall period to control fall germinating weeds. The second application should be made in the early spring just after the last cultivation.

Because these applications are broadcast over-the-top sprays, and not directed or shielded applications, they should be made before there is any significant emergence of seedling annual weeds.

Do not use on sand, loamy sand or gravelly areas of the fields. Irrigation water should not stand or form pools in the field. Avoid rotating to crops susceptible to injury from Simazine.

Do not use on crop, crop residue or seed screenings for food or feed.

Do not apply this product through any type of irrigation system.
