

FIFRA 2(ee)
For windmillgrass control in
LibertyLink (LL) field corn

FIFRA 2ee RECOMMENDATION

**FOR DISTRIBUTION AND USE ONLY WITHIN THE STATE OF
Colorado, Kansas, Nebraska, and Oklahoma**

EPA Reg. No. 5481-637

Directions for Use

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

This recommendation is made as permitted under FIFRA § 2(ee) and has not been submitted to or approved by the Environmental Protection Agency (EPA).

THIS BULLETIN MUST BE IN THE POSSESSION OF THE USER AT THE TIME OF APPLICATION.

Before applying **SINATE®** please read the complete label affixed to the product container. All applicable directions, restrictions and precautions on the EPA-registered label are to be followed. Use of **SINATE** according to this supplemental labeling is subject to the use precautions and limitations imposed by the label on the container.

IMPORTANT: Read the entire Directions for Use and the Limited Warranty and Disclaimer on the EPA-registered **SINATE** herbicide label before using this product.

Use Information

For postemergence control of windmillgrass (*Chloris truncata*) up to 3-8 inches tall in LL field corn:

- Apply **SINATE** at 28 fl oz/acre plus adjuvants.
- New vegetation may emerge following application.

Tank-mix partners

- The addition of atrazine at 0.25 to 0.50 lb ai/acre will improve control. Atrazine containing tank mixtures must be applied before corn exceeds 12 inches tall. Do not exceed 2.5 lb active of atrazine per acre during the season.
- Impact may be included to enhance weed control spectrum. Do not exceed 0.044 lb topramezone/acre season maximum.

Adjuvants

- Always include MSO at 1 gal/100 gal water and ammonium sulfate (AMS) at 3 lb/acre.

FIFRA 2(ee)

For windmillgrass control in
LibertyLink (LL) field corn

Application Information

Apply in at least 20 gallons water per acre using nozzles that produce medium sized droplets for optimum performance.

Refer to the **SINATE** and any tank mix partner labels for information on weed species controlled, additional use directions, restrictions, rotational crop intervals, and precautions. It is the pesticide user's responsibility to ensure that all products are registered for the intended use. Read and follow the applicable restrictions and limitations and directions for use on all product labels involved in tank mixing. Users must follow the most restrictive directions for use and precautionary statements of each product in the tank mixture.

AMVAC will not be responsible for losses or damages resulting from the use of this product in any manner not specifically instructed by AMVAC. User assumes all risks associated with uses not specified by label or AMVAC 2(ee) instructions. Atrazine is a restricted use pesticide.
