

# WILBUR-ELLIS SIX PAK

## GUARANTEED ANALYSIS

Sulfur (S) .....	4.00%
Boron (B) .....	0.25%
Copper (Cu) .....	1.00%
Iron (Fe) .....	0.50%
Manganese (Mn) .....	2.00%
Zinc (Zn) .....	4.00%

DERIVED FROM: Boric Acid, Copper Sulfate, Ferrous Sulfate, Manganese Sulfate, and Zinc Sulfate.  
Chelated with phenolic acid.

**WARNING:** This fertilizer contains boron. Its use on any other plants or under any other conditions other than those specified on the label may result in plant injury.

### KEEP OUT OF REACH OF CHILDREN PRECAUTION

Do not ingest. Avoid contact with skin, eyes or clothing.  
Avoid breathing dust, vapor or mist.

### FIRST AID

In all cases, call a poison control center or doctor for further treatment advice.

**IF SWALLOWED**, call a poison control center or doctor immediately. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to by a poison control center or doctor. Do not give anything to an unconscious person. **IF ON SKIN**, take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. **IF INHALED**, move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration. **IF IN EYES**, hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing.

**For chemical spills, leaks, fire or exposure,**  
call CHEMTREC: (800) 424-9300.

### STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage, disposal or cleaning of equipment.

Store in a safe manner. Store in original container only and keep tightly sealed when not in use. Dispose of unused product and empty containers in accordance with federal, state and local regulations.

### GENERAL INFORMATION

SIX PAK is a foliar or soil-applied micronutrient formula and is non-phytotoxic when used as directed. SIX PAK is readily absorbed by the leaf surface or the root system because of the natural complexing properties of its phenolic acid chelating complex. SIX PAK is an excellent acidification agent when applied with other foliar spray chemicals.

SIX PAK is recommended for use on alfalfa, almonds, avocados, apples, barley, beans, broccoli, cabbage, cauliflower, carrots, celery, citrus, corn, grapes, lettuce, melons, milo, nectarines, pears, peaches, peanuts, pecans, peppers, potatoes, sorghum, soybeans, strawberries, sugar beets, sugar cane, sweet corn, tomatoes, turnips, walnuts, watermelon, wheat, and most other crops.

SIX PAK should be used as part of a comprehensive Total Nutrition System® for optimizing plant growth, development, yield and quality.

### DIRECTIONS FOR USE

When foliar spraying SIX PAK through conventional sprayers, use a minimum of 20 gallons of water per acre. When using low volume equipment, 5 gallons of water per acre is usually sufficient. If less water is used, slight burning of the foliage may occur. A maximum of ½ gallon of SIX PAK per acre per application is recommended.

Aerial applications should not exceed 1 quart of SIX PAK per gallon of water. For best results, spray when crop is in an active growing state following irrigation or natural rainfall. Midday spray applications may not be effective due to excessive moisture evaporation.

The addition of 0.50% (total solution) of a nitrogen solution, ammonium sulfate, or low biuret urea may aid in leaf absorption. Mix SIX PAK with liquid fertilizer, agitating to thoroughly disperse the trace elements. This can be achieved by adding the product to the mixing tank or inducting through a pump. When mixing in a tank, add SIX PAK to water nitrogen solution before adding phosphate material. Use 1 quart of SIX

Information regarding the contents and levels of metals in this product is available on the internet at <http://www.aapfco.org/metals.htm>

PAK per acre in banded application and 2 quarts per acre in broadcast application. Many pesticides can be added and applied while spraying SIX PAK. Follow this mixing sequence: 1) Water. 2) SIX PAK. 3) Pesticide.

**GENERAL APPLICATION:** Use 1 quart of SIX PAK per acre for maintenance, ½ to 1 gallon per acre for moderate deficiency, and 1 to 2 gallons per acre for heavy micronutrient deficiency.

**VEGETABLES:** Apply 1 to 2 pints of SIX PAK per acre per spray application.

**TREE CROPS:** Apply 1 gallon of SIX PAK in 500 gallons of dilute spray. If concentrated spray is used, increase the concentration in direct proportion to dilution. If tree crops are sprayed several times per year, the above amount can be split into more numerous applications. Split applications are considered more beneficial than a single application.

### COMPATIBILITY

SIX PAK is compatible with most insecticides, fungicides, foliar nutrients, and water-dispersed herbicides. SIX PAK is an excellent acidification agent for alkaline water. Always jar test new combinations for compatibility prior to field mixing.

Conditions of Sale and Limitation of Warranty and Liability:

Notice: Read the entire Directions for Use and Conditions of Sale and Limitation of Warranty and Liability before buying or using the product. If the terms are not acceptable, return the product at once, unopened, and the purchase price will be refunded.

The Directions for Use of the product should be followed carefully. It is impossible to eliminate all risks inherently associated with the use of this product. Crop injury, ineffectiveness, or other unintended consequences may result because of many different factors including, without limitation, manner of use or application, weather, combination with other products, or crop conditions. All such risks shall be assumed by Buyer and User, and Buyer and User agree to hold Manufacturer and Seller harmless from any claims relating to such factors.

Seller warrants that this product conforms to the chemical description on the label. EXCEPT FOR THIS WARRANTY, THE PRODUCT IS FURNISHED "AS-IS," AND NEITHER SELLER NOR MANUFACTURER MAKES ANY OTHER WARRANTIES, EXPRESS OR IMPLIED, WITH RESPECT TO THE SELECTION, PURCHASE OR USE OF THIS PRODUCT; SELLER AND MANUFACTURER SPECIFICALLY DISCLAIM ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. Buyer and User accept all risks arising from any use of this product, including without limitation uses contrary to label instructions, under abnormal conditions, or under conditions not reasonably foreseeable to (or beyond the control of) Seller or Manufacturer.

To the extent permitted by law, neither Manufacturer nor Seller shall be liable for any incidental, consequential or special damages resulting from the use or handling of this product. THE EXCLUSIVE REMEDY OF THE BUYER OR USER, AND THE EXCLUSIVE LIABILITY OF MANUFACTURER AND SELLER, FOR ANY AND ALL CLAIMS, LOSSES, INJURIES OR DAMAGES (INCLUDING CLAIMS BASED ON BREACH OF WARRANTY, CONTRACT, NEGLIGENCE, TORT, STRICT LIABILITY OR OTHERWISE) RESULTING FROM THE USE OR HANDLING OF THIS PRODUCT, SHALL BE THE RETURN OF THE PURCHASE PRICE OF THIS PRODUCT, OR, AT THE ELECTION OF MANUFACTURER OR SELLER, THE REPLACEMENT OF THE PRODUCT.

These Conditions of Sale and Limitation of Warranty and Liability shall be interpreted in accordance with the laws of the State of California, excluding its conflicts of laws rules, and may not be amended by any oral or written agreement.
