# SLAM Org™

**BACTERICIDE - FUNGICIDE**  
for Use in Organic &  
Conventional Production

**SLAM ORG™** is a bactericide approved for use in organic production that will kill a broad range of bacteria. This product may be applied on food and non-food crops up to the day of harvest.

**How to Use/Plant Safety:** Use 0.5-1.0 tsp of this product per gallon of water. Shake well before use. Use diluted solution immediately. Do not store diluted solution. **DO NOT FREEZE.** For best results apply early in the morning or in late afternoon. Spray directly onto bacteria or infected plants. Repeat applications at an interval of 4-7 days, depending on bacterial pressure. To prevent product degradation, do not use spray water with a pH lower than 4.0 or higher than 8.0. Use pH correctors such as **KOMPAT ORG™** for pH's out of range. The level of bacterial pressure and amount of rainfall may influence the rate or timing of application.
