

SolMaxTM 2-0-5

A true solution with seaweed and micronutrients

GUARANTEED ANALYSIS:

Total Nitrogen (N)	2.0 %
2.0% Urea Nitrogen	
Soluble Potash (K ₂ O)	5.0 %
Cobalt (Co)	0.05 %
Manganese (Mn)	1.0 %
Molybdenum (Mo)	0.05 %
Zinc (Zn)	2.0 %

Derived from urea, potassium carbonate, cobalt chloride, sodium molybdate, manganese sulfate, zinc oxide and seaweed extract.

For use as a fertilizer in foliar and fertigation applications to supplement nutrient levels on agricultural crops.

Information regarding the contents and levels of metals in this product is available on the internet at <http://www.aapfco.org/metals.html>.

DIRECTIONS FOR USE (Use only as Directed):

- Exercise caution with foliar applications in extreme weather conditions such as high temperatures and poor drying conditions.
- Aerial application – minimum of 5 gallons of water/acre; Dilute sprays – minimum of 20 gallons of water/acre. Apply with sufficient water to deliver spray uniformly on leaf surfaces. Higher volumes of water should be used for higher rates of fertilizer.
- Exercise caution when applying to any crop during bloom, as many factors can affect fruit set and final fruit quality.
- SolMax is compatible with most agricultural chemicals and nutrients. Not compatible with aluminum equipment. Should be applied in conjunction with tissue and/or soil analysis.
- Application rates vary according to specific crop requirements, management objectives, soil nutrient availability and/or environmental conditions.
- Consult a NutriAg representative for specific crop recommendations, application timings and necessity of its use.

SUGGESTED RATES

FOLIAR RATES: 1 qt/acre during the bloom period (preferred timing) or post petal fall/early nut set, and late season during following year bud initiation. Maximum 3 qt/ac/season.

CROPS: Nut trees: Almond, Hazelnut, Pecan, Pistachio, Walnut and other deciduous nut trees.

ATTENTION: This fertilizer contains molybdenum (Mo). The application of fertilizing materials containing molybdenum (Mo) may result in forage crops containing levels of molybdenum (Mo) which are toxic to ruminant animals.

KEEP OUT OF REACH OF CHILDREN.

Warranty Statement: Sellers guarantee shall be limited to the terms set out on the label. The buyer assumes the risk to persons or property arising from the use or handling of this product and accepts the product on this condition. NutriAg warrants that the product conforms to the chemical description on the label and is reasonably fit for purposes stated on such label only when used in accordance with directions under normal use conditions. It is impossible to eliminate all risks inherently associated with the use of this product such as weather conditions, presence of other materials or the manner of use or application, all of which are beyond the control of NutriAg. NutriAg is not liable for consequential, special or indirect damages resulting from the use of or handling of this product. All such risks shall be assumed by the buyer.
