# SoluClear™ PK Low

### GENERAL INFORMATION

SoluClear™ PK Low is a full water-soluble mono-potassium phosphate fertilizer, a highly efficient source of phosphorus and potassium for plants. PK Low contains no nitrogen, which is ideal when nitrogen fertilization should be limited. The application of SoluClear™ PK Low at the productive stages of sugar-rich fruit crops helps increase sugar content as well as improvement in the quality of the crops. SoluClear™ PK Low is also highly pure and fully water-soluble, making it an ideal fertilizer for fertigation and for foliar application. It is also suitable for fertilizer blends as well as production of liquid fertilizers. SoluClear™ PK Low is a safe product in open field for humans and plants.

### DISCLAIMER OF WARRANTIES

Mar Vista Resources, LLC (Seller) warrants that the chemical composition of this product conforms to the description given on this label. THIS WARRANTY IS EXPRESSLY IN LIEU OF ALL OTHER WARRANTIES AND REPRESENTATIONS EXPRESSED, IMPLIED, OR STATUTORY, INCLUDING WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR USE. Buyer further agrees in the event of damages arising from the use of this product to accept a replacement of the product or a refund of the purchase price of the products, at Buyer's option, as full discharge of Seller's liability. No one is authorized to make any other warranty, guarantee or directions concerning this product, and no such warranties, guarantees or directions shall be valid or binding upon Seller.
