Surfact 50 is an effective, natural, surface-extendable spreader and activator that gives rapid wetting and aids in the absorption and translocation of the spray.

Surfact 50 is a low-foaming, nonionic surfactant that can be used with defoliants, fungicides, herbicides, insecticides, and acaricides.

Surfact 50 may be used as an acidifier/buffering agent to lower pH of spray solutions. **Surfact 50** may be used with dilute or concentrate sprays. Carefully follow the precautions, restrictions, recommended use rates, and application directions appearing on the labels of pesticides to be applied with **Surfact 50**.

NOT FOR AQUATIC USE

DIRECTIONS FOR USE

KEEP OUT OF REACH OF CHILDREN

Application by Aerial or Ground Equipment

For general use with acaricides, fungicides, and insecticides, use 8 to 16 fluid ounces per 100 gallons of spray solution.

For general use with defoliants and herbicides, use 1 to 4 pints per 100 gallons of spray solution.

Water pH should be checked before and after introduction of **Surfact 50** to ensure the desired pH level of the spray solution.

Note: When applying by air, follow all pesticide label directions including minimum water volume per acre. Do not substitute **Surfact 50** for water required by the pesticide label.

COMPATIBILITY

Surfact 50 is compatible with most pesticides. However, if the desired combination has not been previously used, a compatibility test is recommended.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal. Do not contaminate water when cleaning equipment or disposing of equipment washwaters.

Storage: Store in original container away from children, animals, foods, feeds and seeds. In the event of spillage or leakage, soak up the material with absorbent clay, sand, sawdust or other absorbent material. Scrape up and dispose in accordance with product disposal.

PRODUCT DISPOSAL

Disposal should be in accordance with applicable regional, national and local laws and regulations.

CONTAINER DISPOSAL

Disposal should be in accordance with applicable regional, national and local laws and regulations.

Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state or local ACRC recycler, visit the ACRC web page at www.acrcycle.org. Decontaminated containers may also be disposed of in a sanitary landfill.
