FIRE ANT KILLER INSECTICIDE

Control Solutions, Inc.
Pasadena, TX 77507

Product Code #MART4964
**FIRST AID**

**If swallowed:**
- Call a poison control center or doctor immediately. Do not induce vomiting unless told to do so by the poison control center or doctor.

**If in eyes:**
- Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye at least 15 minutes. Give 1 to 2 teaspoons (5 to 10 mL) of water directly into the affected eye every 5 minutes.
- Call a poison control center or doctor immediately for treatment.

**If on skin or clothing:**
- Take off contaminated clothing. Rinse skin with plenty of water for 15 minutes.
- Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye at least 15 minutes.
- Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet.
- Call a poison control center or doctor immediately for treatment.

**If inhaled:**
- Move person to fresh air. If not breathing, give artificial respiration, preferably by mouth-to-mouth, if possible.

**NOTE TO PHYSICIAN**
- Atropine is antidotal. 2-PAM may also be used in conjunction with atropine but should not be used alone.
- This is a cholinesterase inhibitor. If signs of cholinesterase inhibition appear, atropine is antidotal. 2-PAM may also be used in conjunction with atropine but should not be used alone.
- If signs of cholinesterase inhibition appear, atropine is antidotal. 2-PAM may also be used in conjunction with atropine but should not be used alone.

**Hazardous materials:**

**Precautionary statements:**
- **CAUTION:** This is a cholinesterase inhibitor. If signs of cholinesterase inhibition appear, atropine is antidotal. 2-PAM may also be used in conjunction with atropine but should not be used alone.

**Personal protective equipment:**
- **PERSONAL PROTECTIVE EQUIPMENT (PPE):**
  - Eyes: Safety glasses or goggles with side shields.
  - Face: Respirator with a half or full face respirator and a high-efficiency particulate air (HEPA) filter.
  - Clothing: Long-sleeved shirt and long pants; socks and shoes.
  - Hands: Gloves made of nitrile, neoprene, latex, or Viton rubber.
  - Skin: Cautiously, if necessary.

**Engineering controls:**
- **CONTROLS:**
  - Local exhaust ventilation.

**First-aid information:**
- **FIRST AID:**
  - If swallowed: Call a poison control center or doctor immediately before taking any action.
  - If in eyes: Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye at least 15 minutes. Give 1 to 2 teaspoons (5 to 10 mL) of water directly into the affected eye every 5 minutes.
  - If on skin or clothing: Take off contaminated clothing. Rinse skin with plenty of water for 15 minutes.
  - If inhaled: Move person to fresh air. If not breathing, give artificial respiration, preferably by mouth-to-mouth, if possible.

**Exposure controls/immunity measures:**
- **EQUIPMENT:**
  - Personal protective equipment required. Any facility that handles this material must use the following PPE:
    - Eyes: Safety glasses or goggles with side shields.
    - Clothing: Long-sleeved shirt and long pants; socks and shoes.
    - Hands: Gloves made of nitrile, neoprene, latex, or Viton rubber.

**Material and process description:**
- **MATERIALS AND PROCESSES:**
  - Mounds
  - Borrow pits

**Hazardous ingredients:**
- **Hazardous ingredients:**
  - **Mounds**
    - **Acetate (0.5-Dichloro) (inhibitor and insecticide):** 75.00%
    - **Other Ingredients:** 25.00%

**Other information:**
- **POLUTION SOURCES:**
  - If released into the environment, this material can cause injury or death to aquatic organisms. In addition, it can harm birds and bees. It is fatal to fish and is very toxic to aquatic life.

**Disposal:**
- **DISPOSAL:**
  - Do not contaminate water, food, or feed by storage, disposal, or cleaning of equipment. Open containers and equipment should be washed with soap and water before recycling or disposal.

**Handling and storage:**
- **HANDLING AND STORAGE:**
  - Store in a dry, cool place.

**Release quantities:**
- **RELEASE QUANTITIES:**
  - None.

**Fire and explosion hazard:**
- **FIRE AND EXPLOSION HAZARD:**
  - No special fire fighting measures required.

**Inhalation and toxicity:**
- **INHALATION AND TOXICITY:**
  - No special inhalation measures required.

**Precautionary statements:**
- **PRECAUTIONARY STATEMENTS:**
  - **DANGEROUS SUBSTANCES:**
    - This material may be hazardous to the environment, especially when it is released to surface water or wastewater systems.
  - **RESTRICTED USE:**
    - Do not use or allow others to use this product in the presence of water or surface water in any form.
  - **HARMFUL INGREDIENTS:**
    - Acetate (0.5-Dichloro) (inhibitor and insecticide): 75.00%
    - Other Ingredients: 25.00%

**Pesticide labeling:**
- **PESTICIDE LABELING:**
  - MOUND TREATMENT OF FIRE ANTS AND HARVESTER ANTS IN TURFGRASS

**Non-agricultural use requirements:**
- **NON-AGRICULTURAL USE REQUIREMENTS:**
  - For other non-agricultural areas, do not enter or allow others to enter until dust has settled.

**Environmental hazards:**
- **ENVIRONMENTAL HAZARDS:**
  - Do not contaminate water, food, or feed by storage, disposal, or cleaning of equipment. Open containers should be washed with soap and water before recycling or disposal.

**Use restrictions:**
- **USE RESTRICTION:**
  - Do not treat mound more than once per season.

**Insecticidal activity:**
- **INSECTICIDAL ACTIVITY:**
  - Fire ant killer insecticide

**Non-Crop Insects:**
- **NON-CROP INSECTS:**
  - Ants (e.g., pharaoh) (only)

**Furthur use instructions:**
- **FURTHER USE INSTRUCTIONS:**
  - Do not contaminate water, food, or feed by storage, disposal, or cleaning of equipment. Open containers and equipment should be washed with soap and water before recycling or disposal.

**Storage:**
- **STORAGE:**
  - Store in a dry, cool place.

**Disposal:**
- **DISPOSAL:**
  - Do not contaminate water, food, or feed by storage, disposal, or cleaning of equipment. Open containers and equipment should be washed with soap and water before recycling or disposal.

- **CONTROL SOLUTIONS INC.:**
  - Product:

**Non-restricted use:**
- **NON-RESTRICTED USE:**
  - For best results apply the mixture to the area where ants are most active. Ants are most active early morning or late afternoon when the material in the mound is warmest and ants are most likely to forage above the mound.

**Applicator safety:**
- **APPLICATOR SAFETY:**
  - When applying this product, and damage caused by drift to other plants or crops. Such risks occur to label instructions. Do not rinse unless required for recycling. Offer for recycling, if available. If recycling is not available; then dispose of container in a sanitary landfill or, if allowed by State and Federal authorities, by burning. If incineration, use open flame.

**Material safety data sheet:**
- **MATERIAL SAFETY DATA SHEET:**
  - Not required.

**Important information:**
- **IMPORTANT INFORMATION:**
  - BEANS, SOYBEANS, PRODUCTS

**Limited warranty:**
- **LIMITED WARRANTY:**
  - Registration is not an endorsement by the United States Department of Agriculture (USDA) of the product or any claim made by the registrant. It is not a guarantee of performance of the product.

**Application:**
- **APPLICATION:**
  - Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the treatment area during application. For any requirements specific to your State or Tribe, consult the agency responsible for pesticide registration.

**Pesticide disposal and storage:**
- **PESTICIDE DISPOSAL AND STORAGE:**
  - Do not contaminate water, food, or feed by storage, disposal, or cleaning of equipment. Open containers and equipment should be washed with soap and water before recycling or disposal. If not available; then dispose of container in a sanitary landfill or, if allowed by State and Federal authorities, by burning. If incineration, use open flame.
