Directions for Commercial Use:

Ground apply Symbooster 10X at a rate of 6-16 oz. per acre. Symbooster 10X can be ground applied or metered through irrigation. If ground applying, ensure that Symbooster 10X is incorporated into the soil immediately after application, either mechanically or with sufficient water to wet soil to a depth of 1 inch. Symbooster 10X can be mixed with most fertilizers, pesticides and sterilants. A compatibility check is recommended. Symbooster 10X is intended to supplement and enhance a full ground fertility program as recommended in accordance with a reliable soil analysis. If you have any questions regarding mixing or application rates contact your Agro-K dealer before using this product.

WARNING: The application of fertilizing materials containing molybdenum (Mo) may result in forage crops containing levels of molybdenum (Mo) which are toxic to ruminant animals.
