

PRODUCT BULLETIN
2(ee) Recommendation

**THIS PRODUCT BULLETIN CONTAINS NEW OR ADDITIONAL
DIRECTIONS FOR USE
WHICH ARE RECOMMENDED BY INNVICTIS CROP CARE LLC
UNDER FIFRA SECTION 2(ee)**

EPA Reg. No. 89168-42-89391

FIFRA Section 2(ee) Recommendation: This recommendation is made as permitted under FIFRA Section 2(ee) and has not been submitted to or accepted by the U.S. Environmental Protection Agency. It is a violation of federal law to use this product in a manner inconsistent with its label. This product bulletin must be in the possession of the user at the time of pesticide application. Follow all applicable directions, restrictions, Worker Protection Standard requirements, and precautions on the EPA registered label.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product inconsistent with its labeling.

For Control of Tar Spot on Corn

For control of tar spot (*Phyllachora maydis*) apply 10.5 fl oz/A of TREVO P either as an early application timing at the V4-V8 growth stages or apply 10.5 - 14 fl oz/A as a late-season application.

Under heavy disease pressure or if conditions are favorable for disease, apply TREVO P at 10.5 fl oz/A (early-season) and TREVO P at 10.5 – 14 fl oz/A (late-season).

Do not make more than two applications of TREVO P or other Group 3 or 11 fungicides before alternation with a fungicide that is not in Group 3 or 11.

Always refer to the complete product label for full use directions and precautionary language.
