PRODUCT INFORMATION

TUF-CELL promotes cell wall thickness and strength while improving root tillering and growth. TUF - CELL also promotes turf blade growth for ball speed and true ball roll. TUF - CELL helps turf resist damage from traffic and disease and also from hot and cold stress as well as stress from water. TUF - CELL organic components increase nutrient uptake and also enhances the soil eco system.

TUF-CELL products has been designed to provide quick response and the highest quality for both turf and ornamental use. This product is the superintendents choice for a basic turf food source with naturally occurring humates, complexes and chelating agents with the **ENZYMATIC** and **BIO STIMULANT** additives.

TUF-CELL products have been designed to be used in concert with soil and tissue tests and professional recommendations to manage the nutrient levels and nutrient balance within the turf and **BENEFICIAL SOIL ORGANISMS**.

TUF-CELL is the best combination of elements, many **NATURALLY OCCURRING**, to boost plant and turf **COLOR** and **VIGOR** year round. It is the most **EFFICIENT** complete turf and soil management product on the market to **CORRECT NUTRIENT IMBALANCES**, provide for a quick turf and plant **GREEN UP**, help **REMEDiate** soil, **REDUCE THATCH** and eliminate excessive growth.

APPLICATION RATES

GOLF COURSES - Fairways, Rough, 1 - 2 gallons per acre per month, or 6 oz. Per 1000 sq ft of Turf per month. When the turf appears to be in good nutrient **MICROBIAL** and **ENZYME** balance, these rates can be cut by ½ for maintenance applications.

GREENS and TEES - 1 gallon per acre bi-monthly, or 3 oz. Per 1000 sq ft of Turf per month.

PARKS and GENERAL TURF - 2 gallons per acre per month, or 6 oz. Per 1000 sq ft of Turf per month. When the turf appears to be in good nutrient **MICROBIAL** and **ENZYME** balance, these rates can be cut by ½ for maintenance application.

SEEDING & SODDING - Apply 1 - 2.5 quarts per 100 gallons of water. For seeding treat up to 5000 square feet before laying seed, apply seed and top-dress follow with water to saturate the soil. For sodding treat up to 5000 square feet of soil interface, apply sod and saturate with water.

LARGE POTS, TRANSPLANTING -2 and ½ quarts per 100 gallons of water. Water in trees and shrubs with 3 gallons of solution, approximately 1 foot from root ball.

GENERAL NURSERY use - Mix 1 - 4 quarts per 100 gallons of water for use on 4000 sq ft of yard or nursery space.

TUF-CELL is a Registered Trademark of Western Nutrients Corporation.

WARNING

This product can expose you to chemicals including Potassium Silicate, which is known to the State of California to cause birth defects or other reproductive harm.
