Dow AgroSciences LLC

9330 Zionsville Road

Indianapolis, IN 46268-1054 USA

RESTRICTED USE PESTICIDE

Due to high acute inhalation toxicity and carcinogenicity. For retail sale and use only by Certified Applicators or persons under their direct supervision and only for those uses covered by the Certified Applicator's certification.

Telone* C-35

EPA Reg. No. 62719-302

2(ee) Recommendation †

For Distribution and Use Only in the States of Oregon and Washington.

**For Control of Plant Parasitic Nematodes and Certain
other Soil Pests in Nursery Crops**

ATTENTION

† This recommendation is made as permitted under FIFRA Section 2(ee) and has not been submitted to or approved by EPA.

- It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
- Read the label affixed to the container for Telone C-35 before applying. Carefully follow all precautionary statements and applicable use directions.
- **Except as specified in this product bulletin, use of these products is subject to all use precautions and limitations imposed by the labels affixed to their containers.**

Directions for Use

Telone* C-35 soil fumigant may be applied at reduced rates for control of plant parasitic nematodes and certain other soil pests in nursery crops. Rates from a minimum of 30 gallons per acre up to the labeled maximum rate of 79.0 gallons per acre may be applied.

Use Precautions:

- Do not apply less than 30 gallons per acre on a broadcast basis.
- The use of this reduced rate of Telone C-35 does not guarantee pest-free growing conditions during the second growing season following treatment.
- Recommendations in this product bulletin are not intended for use on certified nursery stock.
