

Torque[®] liquid

LCO Promoter Technology[®] for

PROD. # 9010-720

MINIMUM GUARANTEE

2 x 10⁻⁷% lipo-chitooligosaccharide (LCO) formulated for corn applications

Other ingredients

Aqueous carrier > 99%

Torque[®] has been specially formulated for use with starter and pop-up fertilizer applications. This formulation is not intended for other uses and may not provide expected performance if used outside of label recommendation.

Compatibility

- Mix and apply with compatible liquid fertilizer products recommended for in-furrow or 2 x 2 applications
- Perform jar test prior to tank mixing products to ensure compatibility
- For product compatibility questions, contact Novozymes BioAg at 1-888-744-5662
- Torque is an additive to liquid fertilizer. With prolonged storage and varying environmental conditions, all liquid fertilizers can have a tendency to stratify. Novozymes BioAg recommends checking with your fertilizer manufacturer for proper storage and handling guidelines, including the need for recirculation. If your product has been in storage an excess of three months or if you notice stratification has occurred, we recommend you recirculate the product for best results

Directions for application

- Clean tank before use
- Shake product well
- Add other products into tank in recommended order of addition before adding Torque
- Torque does not require agitation to remain in suspension
- Recommended for both in-furrow and 2 x 2 applications

Application rate (for in-furrow or 2 x 2)

Planter width	Application rate	2 x 2.5 jug treats
30 in/row	8 oz/A	80 acres
20-22 in/row	12 oz/A	53 acres

corn

Caution

- Shake well before use.
- Store in a cool place.
- Use before expiration date.
- Open jug only when ready to use.

Not a plant food product

- Net weight:** 20.9 lb (9.5 kg)
- Net contents:** 2.5 gallon (9.5 L)
- Jug treats:** 40 acres
