

Transfer

Deposition Aid

PRECAUTIONARY STATEMENT

Read label before use. Keep container tightly closed. Keep only in original container. Do not eat, drink or smoke when using this product. Avoid breathing dust, fume, gas, mist, vapors or spray. Wash hands thoroughly after handling. Wear protective gloves, protective clothing, eye protection and face protection.

FIRST AID

Call a poison control center or doctor immediately for treatment advice. Have the product container with you when calling a poison control center or doctor, or going for treatment.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do then continue rinsing. If eye irritation persists: Get medical advice or attention.

IF ON SKIN OR CLOTHING: Take off contaminated clothing and wash it before reuse. Wash with plenty of soap and water for several minutes.

IF SWALLOWED: Unless advised otherwise by a poison control center or doctor, have person rinse mouth with water, if able. Do not give anything by mouth to an unconscious person.

IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing. If person is not breathing, call 911 or an ambulance, and then give artificial respiration, preferably mouth to mouth if possible.

GENERAL INFORMATION

Transfer is formulated with a superior surfactant system and paraffinic oil to improve deposition and penetration of the active ingredient or nutrients into the target surface.

Transfer promotes efficacy by increasing soil adsorption which can help to reduce run-off and leaching of the spray application.

Transfer is recommended for application in a broad range of crop and non-crop uses including agriculture, turf and ornamental, industrial vegetation management, and specialty crops.

May be used with herbicides, fungicides, or insecticides.

DIRECTIONS FOR USE

Follow the instructions on the most restrictive active ingredient label.

Tank mixtures should only be applied within the label recommendations of every product in the tank mixture.

Caution should be used when applying this or any other product on crops during hot, dry conditions.

Though phytotoxicity has been evaluated, care should be taken by conducting a jar test or testing this product on sensitive plants before full application is performed.

Order of addition

Prior to mixing, fill the spray tank with half of the carrier. Start the sprayer and check to make sure that all valves and gauges work and that there is adequate tank agitation.

In general, follow the W-A-L-E-S plan when adding herbicides to a tank mix.

1. Wettable Powders (WP) then Flowables (F, DF)
2. Agitate then add anti-foaming compounds or buffers.
3. Liquid and Soluble products
4. Emulsifiable concentrates (EC)
5. Surfactants and other adjuvants (**Transfer**)

APPLICATION RATES

Application rate of tank mix by air or ground (gallons per acre)	Application rate of Transfer per acre
0-5	6 to 16 ounces*
5-30	1 to 4 pints
Above 30	1% minimum in spray mix

*Ensure 1% minimum is added to the spray tank but do not exceed 5%.

STORAGE AND DISPOSAL

STORAGE: Store in a cool well-ventilated place. Keep in original container tightly closed. Do not reuse empty container. Do not store with food, feed, or other material to be used or consumed by humans or animals. Do not contaminate water supplies. For optimal storage, store between 40° and 90° F.

DISPOSAL: Do not contaminate water, food or feed by disposal. Dispose of contents in container to an approved waste disposal facility in accordance with all local, regional, national and international regulations. Triple rinse (or equivalent) adding rinse water to application tank. Offer container for recycling or dispose of in a sanitary landfill or by other procedures approved by local regulations. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit the ACRC web page at www.acrcycle.org.

NOTICE TO USERS: Seller warrants the product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of merchantability or fitness for a particular purpose, expressed or implied, extends to the use of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to seller, and buyer assumes the risk of any such use.
