

TROTT™

Water Conditioning Agent

Principal Functioning Agents:

Potassium pyrophosphate,
Dipotassium phosphate, and citric acid 40.1%
Constituents ineffective as spray adjuvants 59.9%
All ingredients are exempt from tolerance requirements under
40 CFR 180.

WARNING

KEEP OUT OF REACH OF CHILDREN

Causes serious eye irritation and skin irritation. Harmful if swallowed or if in contact with skin. Harmful if inhaled.

PRECAUTIONARY STATEMENTS

Read label before use. Do not get on skin, in eyes or on clothing. Do not eat, drink, or smoke while using this product. Avoid breathing spray mist. Wash thoroughly with soap and water after handling and before eating, drinking, using tobacco or using the toilet. Take off contaminated clothing and wash before reuse. Keep container tightly closed. Keep only in original container.

Personal Protective Equipment: Wear protective gloves, protective clothing, eye protection and face protection.

Mixing: All spray mixing and application equipment must be thoroughly cleaned before pesticides are applied.

1. Fill spray tank half full of water and start agitation.
2. Add desired rate of Trott to water before adding pesticides.
3. Add pesticides as directed by the label, while maintaining agitation.

GENERAL INFORMATION

Trott™ is a water conditioning and buffering agent, that is formulated to enhance pesticidal performance. Hard water cations can decrease mixability, solubility, and effectiveness of certain pesticides. Trott contains buffering and chelating agents which aid in maintaining the right pH in the tank mix solution and block hard water cations from interaction with the pesticide molecule. Trott is AMS free.

FIRST AID

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lens, if present, after the first 5 minutes then continue rinsing eye. Call a poison control center or doctor for treatment advice.

IF ON SKIN OR CLOTHING: Call a POISON CENTER and seek medical attention if you feel unwell. Take off contaminated clothing and wash before reuse. Wash with plenty of soap and water.

IF SWALLOWED: Call a POISON CENTER and seek medical attention if you feel unwell. Rinse mouth. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

IF INHALED: Call a POISON CENTER and seek medical attention if you feel unwell. Remove person to fresh air and keep comfortable for breathing.

DIRECTIONS FOR USE

For water conditioning, add 1-2 quarts of Trott per 100 gallons of spray solution (0.25-0.5% v/v). With Dicamba and Glyphosate tank mixes that reduce pH below 5, Trott may be added at rates of 1-4 quarts (0.25-1.0% v/v) per 100 gallons spray solution to raise solution pH. A jar test should be performed for specific tank mixes and water sources that will affect spray solution pH.

Note: Trott does not replace the need for a Crop Oil Concentrate or a Nonionic Surfactant. For specific rates of COC or NIS, please refer to the pesticide manufactures' label.

STORAGE AND DISPOSAL

Storage: Store in a cool, dry place. Store in original container only. Protect from excessive heat. Do not add anything to the container. Keep container tightly sealed when not in use. Do not store near fire, flame or other potential sources of ignition. Do not contaminate water, food or feed by storage or disposal of this product. Shake well before using. Protect from Freezing.

Disposal: Do not reuse empty container. Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal if allowed by law. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit the ACRC web page at www.acrecycle.org. Decontaminated containers and materials must be disposed of in a manner allowed by local, state and federal laws and regulations.

Conditions of Sale and Warranty Limitation: The Directions for Use of this product reflect the opinion of experts based on field use and tests. The directions are believed to be reliable and should be followed carefully. However, it is impossible to eliminate all risks inherently associated with use of this product. Crop injury, ineffectiveness or other unintended consequences may result because of such factors as weather conditions, presence of other materials, or use of the product in a manner inconsistent with its labeling, all of which are beyond the control of CHS Inc. or the seller. All such risks shall be assumed by the buyer. CHS Inc. warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes referred to in the Directions for Use, subject to the inherent risks referred to above. CHS Inc. makes no other express or implied warranty of fitness or merchantability or any other express or implied warranty. In no case shall CHS Inc. or the seller be liable for consequential, special or indirect damages resulting from the use or handling of this product. CHS Inc. and the seller offer this product, and the Buyer and the User accept it, subject to the foregoing Conditions of Sale and Warranty, which may be varied only by agreement in writing signed by a duly authorized representative of CHS Inc.
