

Troupe™

Crop Oil Concentrate

Principal Functioning Agents:

Paraffinic base petroleum oil	83%
Proprietary emulsifier blend	17%
TOTAL.....	100%

All ingredients are exempt from tolerance under 40 CFR 180.

KEEP OUT OF REACH OF CHILDREN CAUTION

Read label before use. Keep container tightly closed. Keep only in original container. Do not eat, drink or smoke when using this product. Avoid breathing spray. Wash hands thoroughly after handling. Wear protective gloves, protective clothing, and eye protection.

FIRST AID

Call a poison control center or doctor immediately for treatment advice. Have the product container with you when calling a poison control center or doctor, or going for treatment.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do then continue rinsing.

IF ON SKIN OR CLOTHING: Take off contaminated clothing and wash it before reuse. Wash with plenty of soap and water.

IF SWALLOWED: Unless advised otherwise by a poison control center or doctor, have person rinse mouth with water, if able. Do not give anything by mouth to an unconscious person.

IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing. If person is not breathing, call 911 or an ambulance, and then give artificial respiration, preferably mouth to mouth if possible.

GENERAL INFORMATION

Use Troupe™ when the active ingredient label recommends the use of a crop oil concentrate (COC).

Troupe is formulated to deliver an industry standard crop oil concentrate and emulsifying system that increases wetting and even distribution of the active ingredient throughout the canopy.

Troupe softens surface waxes and improves penetration of the active ingredient through weather hardened epicuticular tissue and speeds transportation to the mode of action site.

DIRECTIONS FOR USE

Follow the recommendations of the most restrictive active ingredient label.

Tank mixtures should only be applied within the label recommendations of every product in the tank mixture.

Compatible with most active ingredients and most crops and non-crops.

Recommended for use when the label calls for a crop oil concentrate (COC).

Use only if a crop oil concentrate (COC) is allowed or not excluded on the label. If the user does not have experience with the mixture being applied, perform a jar test using the order and amounts in the mixture and perform a phytotoxicity test to ensure crop safety.

Order of addition

In general, follow the W-A-L-E-S plan when adding herbicides to a tank mix.

1. Wettable Powders (WP) then Flowables (F, DF)
2. Agitate then add anti-foaming compounds, buffers
3. Liquid and Soluble products
4. Emulsifiable concentrates (EC)
5. Troupe and other adjuvants

Prior to mixing fill spray tank with half of the carrier. Then start the sprayer and check to make sure that all valves and gauges work and that there is proper tank agitation.

USE RATES

Ground applications: 1 to 4 pints per acre in 5-30 gallons of spray solution.

Aerial applications: 6-16 ounce /acre. A minimum of 1.0% v/v is recommended for aerial and low volume spray applications.

Use rate may be adjusted when applying during hot, dry conditions or when the target is waxy and weather-hardened.

Do not exceed 2.5% v/v concentration.

STORAGE AND DISPOSAL

Storage: Store in a cool, dry place. Store in original container only. Do not add anything to the container. Keep container tightly sealed when not in use. Do not store near oxidizing agents. Do not store near fire, flame or other potential sources of ignition. Do not contaminate water, food or feed by storage or disposal of this product. **STORE BETWEEN 40° AND 90° F.**

Disposal: Do not reuse empty container. Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal if allowed by law. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit the ACRC web page at www.acrecycle.org. Decontaminated containers and materials must be disposed of in a manner allowed by local, state and federal laws and regulations.

Conditions of Sale and Warranty Limitation: The directions for use of this product reflect the opinion of experts based on field use and tests. The directions are believed to be reliable and should be followed carefully. However, it is impossible to eliminate all risks inherently associated with use of this product. Crop injury, ineffectiveness or other unintended consequences may result because of such factors as weather conditions, presence of other materials, or use of the product in a manner inconsistent with its labeling, all of which are beyond the control of Elite Technologies or the seller. All such risks shall be assumed by the buyer. Elite Technologies warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes referred to in the Directions for Use, subject to the inherent risks referred to above. Elite Technologies makes no other express or implied warranty of fitness or merchantability or any other express or implied warranty. In no case shall Elite Technologies or the seller be liable for consequential, special or indirect damages resulting from the use or handling of this product. Elite Technologies and the seller offer this product, and the Buyer and the User accept it, subject to the foregoing Conditions of Sale and Warranty, which may be varied only by agreement in writing signed by a duly authorized representative of Elite Technologies.

Troupe™ is a trademark of Elite Technologies.
