

UNICORN DF

Fungicide

EPA Reg. No. 70905-2

FIFRA Sec. 2(ee)
Recommendation

For control of tar spot (*Phyllachora maydis*) in field corn, popcorn, sweet corn, and corn grown for seed. For use and distribution in the states of IL, IN, IA, MI, MN, MO, OH and WI.

This recommendation is made as permitted under FIFRA Section 2(ee) and has not been submitted to or approved by EPA.

DIRECTIONS FOR USE

All application directions, restrictions, precautions, and Condition of Sale and Warranty on the EPA label are to be followed. Refer to the container label for additional information. Always read and follow label directions.

Information contained in this 2(ee) recommendation is not intended to replace product labeling. The user should have this recommendation in its possession at the time of use.

Target Disease	Product Use Rate Lbs./Acre	Use Directions
Tar Spot (<i>Phyllachora maydis</i>)	3.75 lbs./A (0.16875 lbs. ai)	Apply Unicorn DF on a protective spray schedule when weather conditions are favorable for disease development. Follow all instructions on container label. Apply in a minimum of 10 gallons or more spray solution by ground and 5 gallons or more per acre by air.

PRECAUTIONS:

- Unicorn DF requires two to four hours drying time on plant foliage for the active ingredient to move into plant tissue before rain or irrigation occurs.

RESTRICTIONS:

- Do not apply more than 15 lbs. (0.675 lbs. ai) per acre per crop season.
- Follow label instructions for pre-harvest intervals for field, sweet, pop and seed corn.
