## Vindicate™ NITROGEN STABILIZER OPTINYTE™ TECHNOLOGY EPA Reg. No. 62719-684

This supplemental label expires on August 23, 2020, and must not be used or distributed after this date.

### For Use on Tree Nut Orchard Floors

(Crop Group 14-12)<sup>1</sup>

#### ATTENTION

- It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
- This labeling must be in the possession of the user at the time of application.
- Read the label affixed to the container for Vindicate before applying. Carefully follow all precautionary statements and applicable use directions.
- Use of Vindicate according to this supplemental labeling is subject to all use precautions and limitations imposed by the label affixed to the container for Vindicate.

### Directions for Use

Refer to product label for Vindicate for Use Restrictions, Use Precautions, Application Directions, and Mixing Directions.

<sup>1</sup> Tree nuts (crop group 14-12) including almonds, beech nut, Brazil nut, cashew, chestnut, Chinquapin, filbert (hazelnut), hickory nut, macadamia nut, pecan, pistachio, walnut.

Vindicate may be applied in combination with dry ammoniacal fertilizers (such as urea, AMS, MAP, DAP), liquid fertilizers (such as UAN, aqua ammonia, other liquid ammoniacal or urea nitrogen fertilizers), insecticides, fungicides, herbicides, and/or water prior to bloom through nut development on orchard floors.

Use Vindicate at the rates of 18 to 70 fl oz per acre per application applied as a banded application applied to the soil or through chemigation equipment to orchard floors prior to bloom through nut development up to 30 days prior to harvest. Refer to the product label for application directions and mixing directions.

### Restrictions

- The 70 fl oz rate may be split into two or three separate applications. Do not apply more than 70 fl oz (1.0 lb ai of nitrapyrin) per acre per year.
- Any application of Vindicate must be applied no later than 30 days prior to harvest.
