PRODUCT INFORMATION

VOYAGER 80/20 is a high-quality, general purpose nonionic surfactant. *VOYAGER 80/20* may be used with any insecticides, fungicides, herbicides, acaricides, defoliants, desiccants and wettable powders. *VOYAGER 80/20* will increase pesticidal activity by increasing the wetting and spreading ability of the spray solutions.

FIRST AID

Call a poison control center or doctor immediately for treatment advice. Have the product container with you when calling a poison control center or doctor, or going for treatment.

IF SWALLOWED: Have person sip a glass of water if able to swallow. **DO NOT** induce vomiting unless told to do so by a poison control center or doctor. **DO NOT** give anything by mouth to an unconscious person.

IF INHALED: Move person to fresh air. If a person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible.

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15 to 20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 to 20 minutes.

SUGGESTED USE RATES OF *VOYAGER 80/20*

APPLICATIONS	PER 100 GALLONS OF MIX
Herbicides	1-4 pints
Insecticides Fungicides Acaricides	3-8 fluid ounces
Defoliants Desiccants Wettable Powders	1-2 pints

Variations in conditions of use can cause some variation in the amount of this product required. The minimum required to give a smooth, uniform coverage usually gives the most effective results. Not for aquatic use.

MIXING

Follow all instructions on the label for the pesticide being used. If the pesticide label does not give instructions use the WALES method:

- 1) Wettable powders then dry flowables, agitating constantly and allowing each powder to disperse thoroughly before adding the next.
- 2) Adjuvants such as antifoams and water conditioners but not surfactants.
- 3) Liquid and soluble products.
- 4) Emulsifiable concentrates.
- 5) Surfactants. Add *VOYAGER 80/20* as a surfactant last before the final addition of water using the suggested use rate or the amount recommended on the pesticide label. Pesticide label rates always take precedence over these suggested use rates.

STORAGE AND DISPOSAL

DO NOT contaminate water, food or feed by storage and disposal.

PRODUCT DISPOSAL: Wastes resulting from the use of this product must be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL: Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit the ACRC web page at www.acrecycle.org. Decontaminated containers may also be disposed of in a sanitary landfill.

WARRANTY

Seller warrants that this product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of merchantability or fitness for a particular purpose, expressed or implied, extends to the use of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to the seller, and buyer assumes the risk or any such use.
