

W-Box

Dry Concentrated Deposition Adjuvant

Principal Functioning Agents:

Blend of naturally-derived polymers, dispersants and buffers.100%
All ingredients are accepted for use under 40 CFR 180.

KEEP OUT OF REACH OF CHILDREN WARNING

SLIPPERY WHEN WET

May form combustible dust in air. Read label before use. Keep container tightly closed. Keep only in original container. Do not eat, drink or smoke when using this product. Avoid breathing dust, fume, gas, mist, vapors or spray. Wash hands thoroughly after handling. Wear protective gloves, protective clothing, eye protection and face protection.

FIRST AID

Call a poison control center or doctor immediately for treatment advice. Have the product container with you when calling a poison control center or doctor, or going for treatment.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do then continue rinsing.

IF ON SKIN OR CLOTHING: Take off contaminated clothing and wash it before reuse. Wash with plenty of soap and water for several minutes.

IF SWALLOWED: Unless advised otherwise by a poison control center or doctor, have person rinse mouth with water, if able. Do not give anything by mouth to an unconscious person.

IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing. If person is not breathing, call 911 or an ambulance, and then give artificial respiration, preferably mouth to mouth if possible.

GENERAL INFORMATION

The degree of drift hazard varies with the type of pesticide, application conditions, and the vegetation near sprayed area. This product is intended as a management tool to reduce drift. Common sense and sound application technology must be followed when spraying pesticides.

W-BOX is a granular, water-dispersible, polymeric deposition and drift reduction technology (DRT). The polymer enhances spray deposition, reduces the number of fine droplets and limits rebound bounce and run-off.

DIRECTIONS FOR USE NOT FOR AQUATIC USE

Follow the instructions on the most restrictive active ingredient label.

Tank mixtures should only be applied within the label recommendations of every product in the tank mixture.

W-BOX is intended for use with a wide variety of active ingredients on agricultural crops, aquatic, forestry, industrial, right-of-way and turf and ornamental.

W-BOX does NOT contain ammonium sulfate (AMS).

Order of addition ALWAYS ADD W-BOX TO SPRAY TANK BEFORE ANY OTHER INGREDIENTS.

Prior to mixing, fill the spray tank with half of the carrier. Start the sprayer and check to make sure that all valves and gauges work and that there is adequate tank agitation.

NO foam should be present while adding W-BOX to the tank. Foam prevents the product from dispersing in spray water.

Good dispersion is affected by the pH of the water. Mixing W-BOX into neutral (-pH 7) water will aid in good mixing. Adding directly to acidic water may cause lumps.

1. Add W-BOX to the area of maximum agitation.
2. Mix to totally disperse W-BOX before adding any other ingredients.
3. Add other ingredients in order indicated on pesticide label.

Direction for eductor systems:

1. Fill tank at least half full with water.
2. Begin water flow through eductor system and maximum tank agitation.
3. Add W-BOX to eductor funnel.
4. Allow dry W-BOX to flow into spray tank.
5. Rinse eductor funnel with water.

6. Maintain agitation for 1-2 minutes.
7. Add the rest of the tank mix ingredients in the order indicated on the pesticide label.

Precautions: W-BOX is not recommended for use with sprayable boron formulations such as Solubor™, or with high phosphorus fertilizers such as 10-34-0. Always conduct a jar mix test for product compatibility if working with a pesticide tank mixture for the first time.

USE RATE

General use rate: 6 ounces per 100 gallons

W-BOX may be used at 3 oz. to 12 oz per 100 gallons of spray mix.

Adjust rates to obtain desired spray pattern. Use lower rates for coarse sprays and high spray volumes, and higher rates for low volume and aerial applications.

STORAGE AND DISPOSAL

Slippery when wet. Sweep up material thoroughly. Flush spill area thoroughly with water until no slipperiness remains. Wear suitable protective equipment.

Storage: Store in a cool well-ventilated place. Keep in original container tightly closed. Do not reuse empty container. Do not store with food, feed, or other material to be used or consumed by humans or animals. Do not contaminate water supplies. For optimal storage, store between 40° and 90° F.

Disposal: Do not contaminate water, food or feed by disposal. Dispose of contents in container to an approved waste disposal facility in accordance with all local, regional, national and international regulations. Triple rinse (or equivalent) adding rinse water to application tank. Offer container for recycling or

dispose of in a sanitary landfill or by other procedures approved by local regulations. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit the ACRC web page at www.acrecycle.org.

Conditions of Sale and Warranty Limitation: The directions for use of this product reflect the opinion of experts based on field use and tests. The directions are believed to be reliable and should be followed carefully. However, it is impossible to eliminate all risks inherently associated with use of this product. Crop injury, ineffectiveness or other unintended consequences may result because of such factors as weather conditions, presence of other materials, or use of the product in a manner inconsistent with its labeling, all of which are beyond the control of CHS or the seller. All such risks shall be assumed by the buyer. CHS warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes referred to in the Directions for Use, subject to the inherent risks referred to above. CHS makes no other express or implied warranty of fitness or merchantability or any other express or implied warranty. In no case shall CHS or the seller be liable for consequential, special or indirect damages resulting from the use or handling of this product. CHS and the seller offer this product, and the Buyer and the User accept it, subject to the foregoing Conditions of Sale and Warranty, which may be varied only by agreement in writing signed by a duly authorized representative of CHS.
