

GENERAL INFORMATION

WORK-HORSE is a highly concentrated effective, superior grade spray tank cleaner for agricultural use.

WORK-HORSE will remove pesticide and adjuvant residues and hold them in the rinse solution. (See suggested Use Rates and Special Precautions/Rinsate Testing.)

WORK-HORSE's effectiveness is not reduced by hard water, which contributes to accumulation of residues in sprayer tanks and plumbing.

WORK-HORSE is miscible and compatible with all sprayer equipment and contains corrosion inhibitors.

WORK-HORSE also contains ingredients to minimize wear and damage to sprayer pump seals.

All-Purpose Rigs: **WORK-HORSE** lessens contamination when changing from one chemical to another.

Single Purpose Rigs: **WORK-HORSE** assures accurate dosage by removing chemicals from the previous batch.

FOR COMMERCIAL OR FARM USE ONLY

"WHY HORSE-AROUND WITH ANYTHING ELSE?"

SPRAY TANK CLEANER AND NEUTRALIZER

WARNING

CAUSES SERIOUS EYE IRRITATION. HARMFUL IF SWALLOWED; HARMFUL IF INHALED; HARMFUL IF IN CONTACT WITH SKIN; KEEP OUT OF REACH OF CHILDREN. WASH THOROUGHLY AFTER HANDLING. DO NOT EAT, DRINK OR SMOKE WHEN USING THIS PRODUCT. IF MEDICAL ADVICE IS NEEDED, HAVE PRODUCT CONTAINER/LABEL AT HAND. READ LABEL BEFORE USE.

IF SWALLOWED: Rinse mouth; Call a POISON CENTER/doctor if you feel unwell.

IF INHALED: Remove person to fresh air and keep comfortable for breathing. Call a POISON CENTER/doctor if you feel unwell.

IF ON SKIN: Wash with plenty of water; Take off contaminated clothing and wash it before reuse.

IF IN EYES: Rinse cautiously for 15 minutes. Remove contact lenses, if present and easy to do. If eye irritation persists: get medical advice/attention.

DIRECTIONS FOR USE

Use WORK-HORSE at a rate of 1-quart per 100 gallons of water.

In special tank conditions of difficult chemical build-up or obvious chemical or dirt-grime, you can use a more concentrated mixture of 1-4 quarts per 100 gallons.

LARGE VOLUME SPRAYERS — Use at a 400:1 ratio (1 gallon of Work-Horse to 400 gallons of water). Close boom valve and add the water. Adjust the solution rate as needed for individual conditions.

FOR LARGE TANKS — 100-400 GALLONS: Close boom valve and add 50 gallons of water to tank, then turn on agitation and add one quart of WORK-HORSE while circulating the liquid through the valves, hoses and pump, by opening the bypass. Use the hand boom to wash down the tank interior cover. Once the pump and interior have been cleaned, open boom valve and empty tank by spraying out through boom and nozzles. Take care to observe proper disposal of spray solution. Rinse tank by following the same procedure using water only. A three-minute rinse using cold water is necessary, however, if you are changing over to a different chemical, a second rinse will lessen the chance of contamination. When cleaning a tank used for herbicides and chemicals that can cause plant response at low levels, pay particular attention to those parts of the equipment that may absorb the chemical such as hoses, connections, and pump and hand boom packing. Use WORK-HORSE as directed but in addition; allow the rinse solution to remain in the sprayer and its parts overnight. WORK-HORSE, when used according to label directions, will usually adequately clean the exposed surface of these areas. It is critical that all nozzles, spray tips and screens be taken out and cleaned of any chemicals or debris before placing them back into use. Any final rinsate should be pumped from the tank with no screens or nozzles, since loose chemicals and debris may lodge in them. However, when using these types of chemicals, parts of the sprayer that can absorb product may need to be replaced.

FOR SMALL TANKS — Fill tank half-full of water and use one (1) ounce or more of WORK-HORSE for 3 gallons of the tank volume.

HAND HELD AND BACK-PACK SPRAYERS — Use approximately one (1) ounce WORK-HORSE per gallon of water, agitate thoroughly, drain and follow with a clean water rinse.

FOR PROBLEM TANKS — When using WORK-HORSE to clean tanks left standing or containing built-up residue from extended use, allow the cleaning solution longer time to act. WORK-HORSE'S cleansing action may remove rust and scale that was sealing a badly corroded tank, however, it will not harm steel, aluminum, brass or poly tanks and parts if directions concerning rinsing are followed.

USE WORK-HORSE BEFORE SPRAYING TO:

- Remove scale, dirt, etc.
- Reduce strainer clogging
- Protect pump and valves
- Minimize nozzle wear

This product neutralizes acidic tank spray solution.

CONDITIONS OF SALE — LIMITED WARRANTY AND LIMITATIONS OF LIABILITY AND REMEDIES

Read the conditions of Sale Warranty and Limitations of Liability and Remedies before using this product. If the terms are not acceptable, return the product, unopened and the full price will be refunded.

The directions on this label are believed to be reliable and should be followed carefully. Insufficient control of pests and/or injury to the crop to which the product is applied may result from the occurrence of extraordinary or unusual weather conditions or the failure to follow the label directions or good application practices, all of which are beyond the control of Atlantic-Pacific Agricultural Company, Inc. (APAg) or the seller. In addition, failure to follow label directions may cause injury to crops, animals, man or the environment.

APAg warrants that this product conforms to its chemical description and is reasonably fit for the purpose referred to in the directions under normal conditions of use. Neither this warranty nor other warranty of merchantability or fitness for a particular purpose, express or implied, extends to the use of this product contrary to label instructions, or under abnormal conditions. The exclusive remedy against APAG for any cause of action relating to the handling or use of this product shall be limited to, at APAG's elections, one of the following: 1) Refund of the purchase price paid by buyer or user for product bought, or 2) Replacement of the product. To the extent allowed by law, APAG shall not be liable and any and all claims against APAG are waived for special, indirect, incidental or consequential damages or expense of any nature, including, but not limited to, loss of profits or income. APAG and the seller offer this product and the buyer and user accept it, subject to foregoing conditions of sale and limitation of warranty, liability and remedies.
