First Aid: If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. **If on skin:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. **If swallowed:** Call a poison control center or doctor immediately for treatment advice. Have the person sip a glass of water if able to swallow. Do NOT induce vomiting. Do not give anything by mouth to an unconscious person. **If inhaled:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

MIXING

Mixing sequence: Always add **Water-Soft™** directly to the water PRIOR to any additional tank mix product.

1. Fill container 1/2 full with water.
2. Add **Water-Soft** to water. Mix or stir this treated water solution. Add remaining volume of water.
3. Following label recommendations, add chemical(s) to this **Water-Soft** treated solution. Agitate to ensure complete mixing.
4. Spray target.

DIRECTIONS FOR USE

Add 1.0 to 4.0 quarts of **Water-Soft** to each 100 gallons of spray mix according to water hardness (calcium carbonate). **Water-Soft** will neutralize the calcium ions that may reduce the herbicide activity. Use **Water-Soft** only with water mixtures. The treatment is especially beneficial with amine formulations.

USE THE FOLLOWING GUIDELINES FOR RATES:

50 to 150 ppm Calcium: Add 1.0 quart of **Water-Soft** for each 100 gallons of spray mix.

150 to 250 ppm Calcium: Add 2.0 quarts of **Water-Soft** for each 100 gallons of spray mix.

250 to 350 ppm Calcium: Add 3.0 quarts of **Water-Soft** for each 100 gallons of spray mix.

350 or more ppm Calcium: Add 4.0 quarts of **Water-Soft** for each 100 gallons of spray mix.

NOTE: 17.1 ppm calcium carbonate equals 1 grain of hardness.

STORAGE AND DISPOSAL

STORAGE: Store locked up. Store in cool, dry place. Store in original container. Keep tightly closed. Do not reuse empty container.

DISPOSAL: Do not contaminate water, food or feed by storage or disposal. Dispose of contents/container at an approved waste disposal facility. Triple rinse (or equivalent) adding rinse water to spray tank. Offer container for recycling or dispose of container in sanitary landfill, or by other procedures approved by appropriate authorities. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler, visit the ACRC web page at www.acrcycle.org.
