

WATER CONDITIONER

For Agricultural, Industrial,
Turf and Ornamental Sprays

Principal Functioning Agents:

Propionic acid ammonium salt, alkylphenol ethoxylate phosphate ester, 2-hydroxy-1,2,3-propanetricarboxylic acid,	50%
ammonium sulfate, acrylic acid polymer sodium salt	50%
Constituents ineffective as spray adjuvants	50%
TOTAL	100%

KEEP OUT OF REACH OF CHILDREN

WARNING

Precautionary Statements: Harmful if inhaled. Causes eye irritation. May cause an allergic skin reaction. Avoid breathing dust/fume/gas/mist/vapours/spray. Use only outdoors or in a well-ventilated area. Wash hands thoroughly after handling. Contaminated work clothing should not be allowed out of the workplace. **Environmental Precautions:** Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when cleaning equipment or disposing of equipment wash-waters.

NET CONTENTS: _____

Personal Protective Equipment: Wear protective gloves/protective clothing/eye protection.

FIRST AID: **If on skin or clothing:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 to 20 minutes. **If in eyes:** Hold eye open and rinse slowly and gently with water for 15 to 20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. **If swallowed:** Call a poison control center or doctor immediately for treatment advice. Have a person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person. **If inhaled:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible.

FOR A MEDICAL EMERGENCY INVOLVING THIS PRODUCT, CALL 1-866-944-8565.

GENERAL: **WATER CONDITIONER** is formulated to aid the performance and mixing of spray solutions. Hard water and high pH can reduce the mixability and/or solubility of certain pesticides. Components of **WATER CONDITIONER** sequester and chelate hard water ions. Ammonium sulfate and ammoniacal nitrogen from the salt components of **WATER CONDITIONER** will aid in uptake of some herbicides by certain plant species. **WATER CONDITIONER** can be used as an ammonium sulfate replacement. **WATER CONDITIONER** may be used on a wide variety of agricultural crops or industrial and non crop sites, such as but not limited to; Forestry (site preparation and release), Industrial (storage areas, plant sites, and other similar areas including governmental and private lands), Grasslands (including pastures, rangeland and fence rows), Rights-of-way (utility, railroad and roadsides), Turf (golf courses, parks, sod farms, and lawns), and Ornamentals (container, field, greenhouse or nursery) and other turf, ornamental and landscaping sites.

DIRECTIONS FOR USE: **WATER CONDITIONER** is formulated to have no antagonism when used with K-salt glyphosate formulations. Fill spray tank 1/2 full of water and begin agitation. Add desired rate of **WATER CONDITIONER** to water before adding pesticides. Add pesticides, as directed by label, while maintaining agitation. Always add **WATER CONDITIONER** to water before pesticides. For tank mix compatibility concerns, conduct a jar test of the proposed mixture to ensure compatibility of all components. Mix components in the same ratio as the proposed tank mix.

SUGGESTED USE RATE: 2 to 4 pints per 100 gallons – (1/3 to 2/3 fluid ounce per gallon); Per Acre: 1/2 pint per acre has demonstrated performance equal to 2 lbs. Ammonium Sulfate.

Note: This product has demonstrated excellent plant safety; however, not all species of ornamentals have been tested. Before treating a large area, test on a small area and observe prior to full-scale application. Higher mineral content in water will require the higher rates of **WATER CONDITIONER**. **WATER CONDITIONER** does not replace requirement for adding surfactant.

STORAGE AND DISPOSAL

STORAGE: Store in cool, dry place. Store in original container. Keep tightly closed. Do not reuse empty container.

DISPOSAL: Do not contaminate water, food or feed by storage or disposal. Dispose of contents/container in accordance with local/national regulations. Triple rinse (or equivalent) adding rinse water to spray tank. Offer container for recycling or dispose of container in sanitary landfill, or by other procedures approved by appropriate authorities. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit the ACRC web page at www.acrcycle.org.
