**CAUTION:** Harmful if swallowed, absorbed through skin or inhaled. Avoid breathing vapor or spray mist. Remove contaminated clothing and wash clothing before reuse. Causes moderate eye irritation. Avoid contact with eyes, skin or clothing. Wash thoroughly with soap and water after handling.  
**Personal Protective Equipment:** Wear Long-sleeved shirt and Long pants, Socks, Shoes and Gloves.

#### First Aid:

**If on skin or clothing:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes.

**If in eyes:** Hold eye open and rinse slowly and gently with water for 15 to 20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.

**If swallowed:** Call a poison control center or doctor immediately for treatment advice. Have the person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

**If inhaled:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible.

**Directions for Use:** Some pesticides have stated adjuvant use rates. In all cases, the pesticide manufacturer's label should be consulted regarding specific adjuvant use recommendations and that rate followed. Do not add adjuvant at a level that would exceed 5% of the finished spray volume.

**Acraicides, Insecticides, Fungicides, Livestock Sprays: Use 1/4 to 1/2 pint per 100 gallons of water**

Field experience has shown that the addition of a surfactant to some acraicides, insecticides, and/or fungicides may cause phytotoxicity on foliage or fruit. Prior to adding X-77 Spreader to an acraicide, insecticide and/or fungicide spray, the user must have experience with this combination or conduct a small scale phytotoxicity test before large scale use.

**Herbicides (Aquatic & Terrestrial), Defoliants, Desiccants: Use 1/2 to 4 pints per 100 gallons of water**

In difficult wetting situations (such as hard water or mature waxy foliage) use the higher rate.

**NOTE:** The rate of X-77 Spreader required may vary with conditions of application. (Not for aquatic use in Washington.)

**Storage:** Store in cool, dry place. Store in original container. Keep tightly closed. Do not reuse empty container.

**Disposal:** Do not contaminate water, food or feed by storage or disposal. Wastes may be disposed of on-site or at an approved waste disposal facility. Triple rinse (or equivalent) adding rinse water to spray tank. Offer container for recycling or dispose of container in sanitary landfill, or by other procedures approved by appropriate authorities. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit the ACRC web page at [www.acrcycle.org](http://www.acrcycle.org).
