**KEEP OUT OF REACH OF CHILDREN**

**WARNING**

**Hazard Statement:** Causes serious eye irritation.

**Precautionary Statements:** Wash face, hands and any exposed skin thoroughly after handling. Do not eat, drink, smoke or use the toilet when using product. Wear protective gloves, clothing and eye protection.

If swallowed, rinse mouth. Do not induce vomiting. If on skin take off contaminated clothing and rinse skin with water. If inhaled, remove victim to fresh air. If in eyes, rinse with water for several minutes. Remove contact lenses if present and easy to do. Continue rinsing. Get medical advice if eye irritation persists.

**Environmental Hazards:** Avoid release to the environment.

**Storage and Disposal:** **Storage:** Store in original containers only. Keep containers tightly closed when not in use. Store in a cool, dry well-ventilated area, away from children, feed and food products and seed. Store at ambient temperatures. Do not contaminate water, food, or feed by storage or disposal. **Disposal:** Do not reuse container. Dispose in a sanitary landfill or by other procedures approved by state and local authorities.

**WARNING:** This product contains Boron (B). The use of *Yoduo* on any crops other than those recommended may result in serious injury to the crop(s).

**GENERAL INFORMATION**

*Yoduo* is a water-soluble fertilizer containing nitrogen and secondary and micronutrients sulfur, boron and zinc. *Yoduo* can be used in combination with water soluble plant nutritional products formulated for foliar or drench applications. It may be applied alone or in tank mixes containing other fertilizers. *Yoduo* is believed to be compatible with most agricultural water-soluble plant nutritional products. If physical compatibility with another fertilizer product is unknown, use a jar compatibility test. When applying *Yoduo* as a foliar spray, always use a spreader penetrant.

**FOR AGRICULTURAL OR COMMERCIAL USE ONLY**

**DIRECTIONS FOR USE**

**Transplanted Crops:** Apply *Yoduo* as a drench application immediately before or after transplanting followed by up to 3 foliar applications at 5-7 days before flowering, and then at 10 day intervals for the remaining applications.

**Seeded Crops:** Apply *Yoduo* in 3-4 foliar applications at 5-7 days before flowering and then at 10 day intervals for the remaining applications.

**Permanent/semi-permanent Crops:** Apply *Yoduo* in 3-4 foliar applications at 5-7 days before flowering and then at 10 day intervals for the remaining applications.

**Application Rates:** Apply 13.7 – 27.4 fl. oz./acre (1-2 liters/hectare) at each application.

**Crops:** *Yoduo* can be applied to all crops including but not limited to: brassica (cole) vegetables, beans, berries, cereals, citrus, cucurbits, fruiting vegetables, grapes (raisin, table and wine), greenhouse vegetables, leafy vegetables, nurseries, ornamental trees, shrubs and flowers, root and tuber vegetables, row crops, strawberries, tree fruit and nuts.

**ONCE PRODUCT IS DILUTED, USE WITHIN 24 HOURS**

**SHAKE WELL BEFORE MIXING**

**Mixing Instructions:** Fill the tank half full with water and then add *Yoduo* with agitation running. Add other tank mix partners and the remainder of the water.

**DO NOT** apply in slow drying conditions or in excessive heat.

**CONDITIONS OF SALE:** The information contained herein is true and accurate to best of our knowledge and belief. But, as no control can be exercised over the manner in which or the conditions under which this product is used, all conditions and warranties expressed or implied, other than those required by statute are excluded. No responsibility will be accepted for any damage or injury whatsoever arising from the storage, handling, application or use of this product.
